5. "人" : Position 3, the standing height saved by the user
6. "人" : Position 4, the seated height saved by the user
7. "M" : Memory saving button, for height memory function and Child lock: for security

### 3. Operating Instructions

- **Height Adjustment:**  
Press the "▲" or "▼" button to adjust the height. The LED display shows the current height.
- **Set Memory Positions:**
  - a. Press the "▲" or "▼" button to adjust to the desired height
  - b. Press and release "M" to enter memory setting mode and the screen will display "5-"
  - c. Press 1, 2, "f", or "h" to save the height to the corresponding position which will show in the display screen as "5-1", "5-2", or "5-3", or "5-4";
- **Move to Memory Positions:**  
Press and release the "1", "2", "f", or "h" button to automatically adjust to the saved position.
  
- **Anti-collision:** During height adjustment, if tabletop comes in contact with another object, it instantly stops and reverses to avoid damage.
  
- **Anti-collision sensitivity adjustment - optional:**  
Press and hold the "▲" "▼" buttons for 5 seconds at the same time to switch the sensitivity. Once the display shows "A-#" it has cycled to the next setting. Release buttons and repeat to cycle through settings.  
"A-0", the anti-collision function is off; "A-1", low sensitivity  
"A-2", medium sensitivity; "A-3", high sensitivity (default)
  
- **Child lock function:**
  - a. To engage or disengage child lock, press and hold the M button for about 5 seconds.
  - b. When child lock is turned on, a blue LED light activates above "▼" and M. Any button press creates a flash of the blue LED, a beep and LOC on the display
  - c. Only when the child lock is unlocked, will all the buttons work normally.
  
- **Troubleshooting:**
  - a. Reset: When the LED shows "RST", press "▼" button until the desk reaches its lowest height and rebounds to stop, the reset has been finished.
  - b. If LED shows "E01" or "E02", please retry 18 mins later, desk overuse.
  - c. If the "▼" button doesn't work, please check cable connections and then unplug power for at least 10 seconds. Reconnect power and press "▼" button to start the reset process when it shows the "RST".
  - d. Still not working?, please contact MojoDesk customer service 800-297-6656.
