TERMS AND CONDITIONS OF WARRANTY AND CLAIMS

1. The Gyrocopters Hover kart X3 is free from design and material defects that could affect its functionality, provided that the instruction manual provided at the conclusion of the contract was followed.
- 2.The warranty covers only the territory of Canada, and the warranty period for Gyrocopters Hover Kart X3 is 90 days, counting from the date of sale of the equipment.
- 3.Defects revealed during the guarantee period will be removed free of charge within the shortest possible time, not exceeding 21 business days from the device being physically accepted to the site. If it is necessary to bring spare parts from abroad, the deadline may be extended by another 30 days.
- 4.This warranty does not cover damage resulting from the fault of the customer, in addition, the guarantor is not liable for damages and losses resulting from the use of the device being repaired
5. Full warranty terms and information can be found on www.imgadgets.com

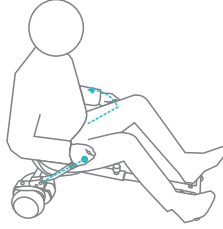

Horizontal stop

Keep both handles horizontal.

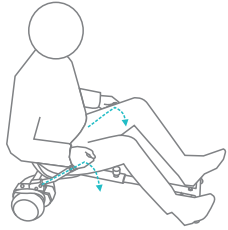

Backwards

Lift up both handles.

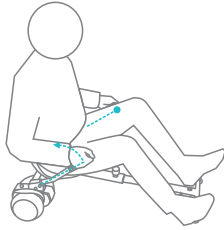

Turn right

Put down the left handle.
Do not move your right handle.

Forward

Push both handles down.

Turn left

Put down the right handle.
Do not move your left handle.

SAFE USING

Before each riding:

1. Sit on the seat.
2. Keep handles horizontally.
3. Turn on the power switch.

ASSEMBLY STEPS

Follow these steps to assemble it correctly:

Step 1: Open the box and check if there is no missing parts.

Step 2: Front tube: put the tube into it and adjust the suitable hole. Use the Knob (COMPONENTS 4) to fit in suitable length.

Step 3: Handles: Use Allen wrench (COMPONENTS 2) and Allen key (1) to assemble handles with four Allen screws M8*50MM (COMPONENTS 3) and four Anti-slip nuts M8 (COMPONENTS 6). Make sure that you have attached the handles correctly before next step.

Step 4: Seat: Use Allen key (COMPONENTS 1) to fasten the seat to the transverse support with 3 four Allen screws M8*20MM (COMPONENTS 5).

Step 5: Attach the complete assembly to a board and adjust the nut on the end of the transverse support, so that it fit the board size. Fasten this assembly to the board with the belts. Check if the belts are firmly tightened before each using.

WARNING:

- Don't let this device work without any person sitting on. It could be dangerous.
- If you want to detach this device from the board, loose the belts.
