TANGO CONNECT

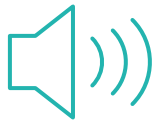

Tango Connect is an advancement in video conferencing which helps to make remote meetings and presentations clearer and more professional. Featuring a high resolution 4K camera, its wide-angle view allows you to include everyone in the meeting whilst the remote controlled digital PTZ allows you to focus in when required, with no noticeable loss in quality.

Built-in beamforming microphones ensure your voice will be clearly heard, whilst acoustic echo cancellation and automatic noise suppression helps to remove unwanted noise.

Tango Connect is plug-and-play, connects to your computer with a single USB cable and is compatible with virtually all collaborative software platforms including Skype, Zoom, Teams etc.
