# i3SIXTY

The most advanced digital flipchart for true mobile and flexible collaboration

# Flexibility

## Turn any area into a collaborative workspace

Through the wheeled, mobile stand you can move the i3SIXTY to any meeting environment and start collaborating with ease.

## Adapt to the way you work

Toggle between landscape and portrait mode to optimally accommodate different types of content, and create a superior viewing experience.

## Easy access

The i3SIXTY is a simple tool that includes flexible options for input, output, and display. Anyone can use it - it's easy to learn.

# Collaboration

## Get the ideas flowing

Jot down ideas on the whiteboard like you would on a traditional flipchart, but retain the possibility to continue working on additional pages.

## Limitless co-creation

Combine input from multiple sources (websites, applications, connected external devices) to co-create an extensive collection of thoughts and ideas.

## Involve remote workers

Easily bring in remote presenters on screen for collaboration during the meeting.

# Sharing

## Share content wirelessly

Link your devices to the i3SIXTY without fuss or cables. It's easy to share the screen from your laptop or mobile device on the flipchart.

## Capture your ideas

Share your notes instantly with all stakeholders via email or QR code. Many people can contribute to the flipchart input, and the results of the collaboration can be refreshed and reused in future meetings.

# Top features

## Wireless casting

Mirror the screen of your i3SIXTY display to your other devices.

## Internet browsing

Bring in content with the integrated web browser.

## Whiteboarding

Take quick notes in the integrated whiteboarding app and share them instantly.

## 90° Screen Rotation

Toggle between landscape and portrait mode.

## Wireless presenting

Share your screen wirelessly on the i3SIXTY without any hassle.

## Video conferencing

Set up video conferencing calls with the integrated camera, microphone and Zoom application.

## Annotating

Easily create and export annotations on every screen or application you use, even on connected devices.

## Mobile Stand

Turn any area into a collaborative workspace with the wheeled, mobile stand.
