

Detangler

One of the biggest problems anyone with long hair has faced is tangles and knots. After a nice, relaxing shower, it can be frustrating to know that you're stuck with a brush and a hundred tangles in your hair. It's even harder to manage because most Detanglers on the market contain harsh chemicals that are known to cause irritation to the scalp and skin.

FRAGFRE®'s Detangler which is free of all known skin irritants can detangle your hair in seconds and help you get those gorgeous tresses in check without ever having to compromise on the safety of the products you use. Our Detangler has been carefully developed to contain only ingredients that are completely safe for your skin; which is particularly beneficial for those with sensitive skin or known skin allergies

Benefits

- Gently detangles your hair
- Prevents frizz and unruly hair
- Makes hair more manageable in varied climates
- Prevents allergies and skin sensitivity

Usage

- Apply to washed and dried hair
- Use your fingers or a large toothed comb to separate strands
- Condition with FRAGFRE® Nourishing Conditioner and style it using FRAGFRE® Styling Gel for spectacular results

Meta description

A hypoallergenic Detangler specially formulated for sensitive skin, FRAGFRE® Detangler is free of fragrances, dyes, parabens, sulfates; contains no irritating alcohols, preservatives or petroleum derivatives; avoids formaldehyde, phthalates, BHT and unsafe harmful chemicals.
