

COFFEE RAMJET 2019

Barrel Aged Imperial Stout • 11.2% ABV • 330ml

Bottle Release: February 2019

STORY

Pretty much everyone knows our infamous Ramjet STARWARD whisky barrel aged imperial stout. It's a big luscious beast of a beer, with lovely whisky notes, and delicious aromas and flavours of dark chocolate, coffee, and malt. Inspired by some classic overseas versions of Bourbon BA coffee beers, we wanted to create a uniquely Australian version, using the wonderful whisky barrels of STARWARD.

We decided to up the natural coffee character that is present in Ramjet by infusing the beer with whole dark roast coffee beans. The result is an intense coffee aroma, and great coffee flavour blending into the thick luscious body of the base beer.

TASTING NOTES

Aroma of fresh coffee, quite intense (but through experience, this will drop off a little over time) with notes of malt, whisky, wood playing second fiddle to the coffee. On the palate, strong coffee flavours abound, but work well with the thick body, the whisky and malt integrating well with the extra coffee kick.

FOOD PAIRING

This beer seems made for dessert! Enjoy it alongside something with rich chocolate notes like a brownie.

CELLARING POTENTIAL

On average we suggest Ramjet to survive 5 or so years with some of the character thinning out over time. As we have seen with the last Coffee Ramjet, the coffee notes fade a little over time.
