CAMBI

A STEP AHEAD

CAMBI

Delivering powerful illumination in a tiny package.

The Cambio series of step lights and mini downlights enhance a room's aesthetics and atmosphere with their warm glow. Carry out midnight snack runs safely by installing the Cambio in practical areas throughout the home such as along pathways and stairs.

When it comes to the technology behind this pocket rocket, it's built using high-density chip-on-board (COB) LEDs, which result in a smaller product that provides as much light as a traditional step light. The module and driver that sit inside the wall are super compact at less than 100mm deep. And because the unit is recessed, stubbed toes will become a thing of the past.

Each unit produces high quality illumination with low power consumption and is rated to last a remarkable 40,000 hours. Suitable for use in wet areas such as the bathroom or laundry, this low wattage, low glare luminaire will fulfil multiple interior design needs.

PURE MAGNETISM

Cambio features an interchangeable fascia that snaps on easily with magnets, available in a variety of colours and styles.

The pinhole downlight casts a focused beam directly beneath it, allowing items below it to be lit with a controlled spread of light. Place along hallway ceilings for soft pools of guiding light and avoid stepping on those pesky toy bricks that didn't get put away.

PINHOLE

WALL WASHER

Instead of shining light straight down, the wall washer downlight has an angled reflector, which produces an asymmetrical beam and illuminates vertical surfaces. Its main use is to gently bathe a wall in light, and is ideal for drawing attention to favourite artworks or to influence a room's ambience.

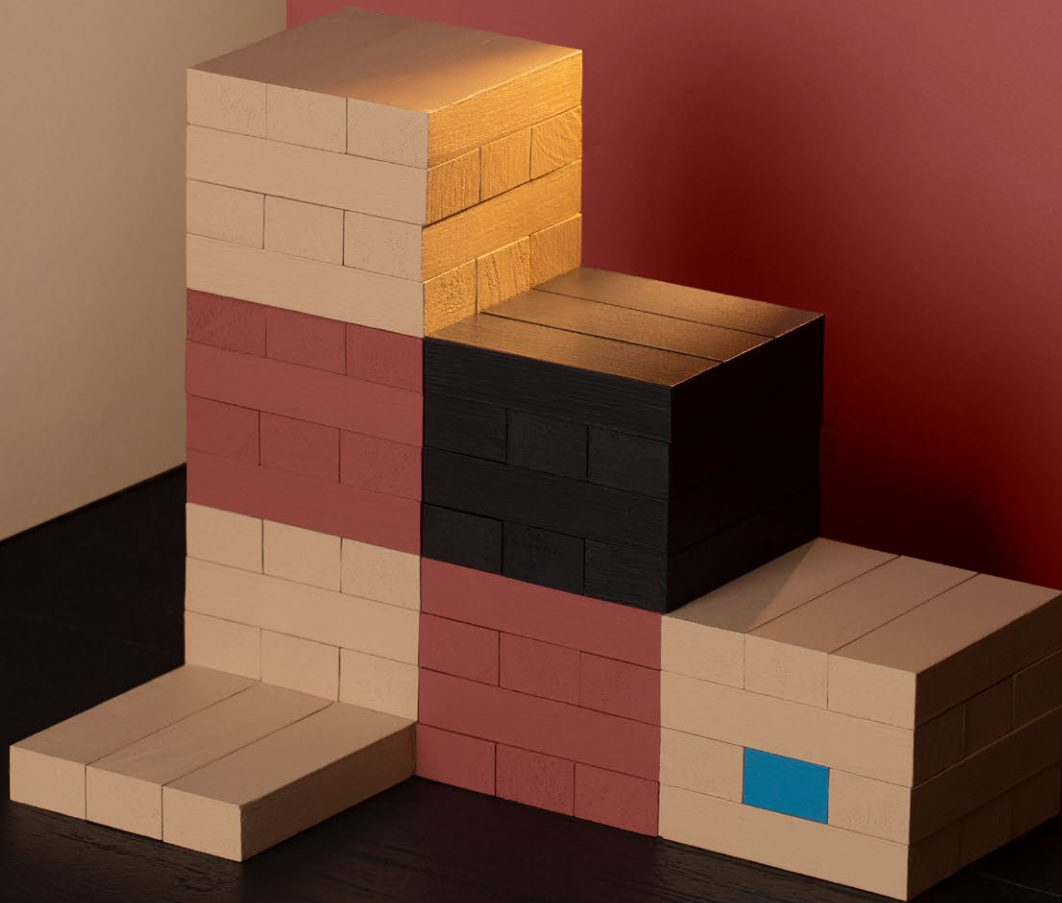

EYELID

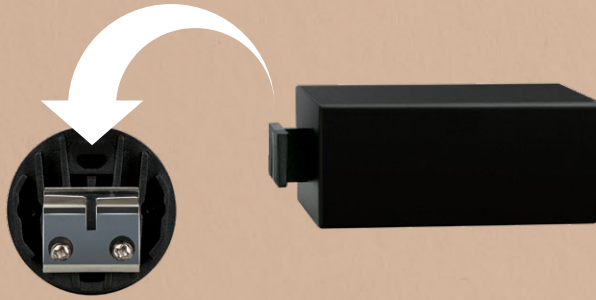

The shape of the opening on an eyelid step light aims the beam downwards and creates a soft spread of light. When installed at foot-height, this design lowers glare and shines onto the floor for safe passage on those late-night fridge raids. Consider installing on steps and in corridors where subtle accent lighting is required.

The slot style of step light is also designed for low glare and practical illumination of pathways, however, the fascia's narrow opening creates a more pointed, linear beam of light than the eyelid. Specify this style when the interior architectural design calls for striking accent lighting that is positioned with purpose.

S L O T

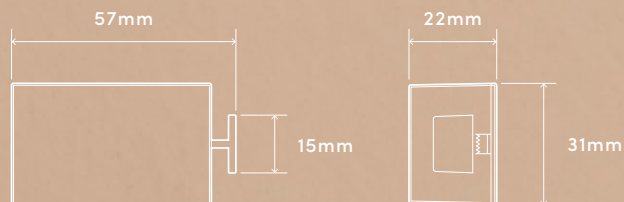

THE BEST BACKSEAT DRIVER

Two flexible options for positioning the driver:

- Attach the driver to the heat sink with its snap-joint design
- Keep the driver separate from the heat sink

DIMMABLE

The TRIAC dimming function provides a smooth dimming curve without flicker and an adjustment output range of 5% to 100%. Dial up or down to set the right mood.

IP54

With an anti-rust powder coating and moisture-friendly fitting, the Cambio series achieves an ingress protection rating of IP54. Each unit is acceptable for use in indoor wet areas such as the bathroom and laundry.

STYLE AND RESTYLE

The Cambio step lights offer twelve fascia options for flexibility in style and function. Variants are colour (black, white or silver), shape (round or square) and design (eyelid or slot). The variants for each Cambio downlight are colour (black, white or silver).

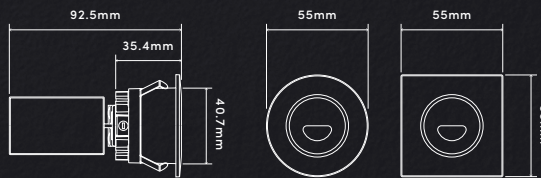

STEP LIGHTS

EYELID

Colour / Finish Black, white or silver
Material Aluminium
Power 3W
Light Output 45 lumens
Colour Temp. 3000K
Voltage 220-240V AC

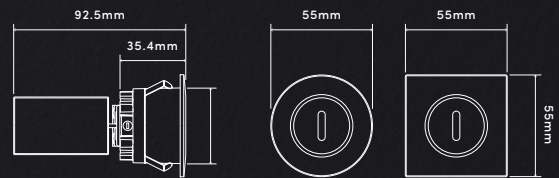

Dimensions (mm) W55 x H55 x D92.5
Cutout DIA45mm
CRI >90
IP Rating IP54
Globe Bridgelux COB
Warranty 3 Year Residential

SLOT

Colour / Finish Black, white or silver
Material Aluminium
Power 3W
Light Output 45 lumens
Colour Temp. 3000K
Voltage 220-240V AC

Dimensions (mm) W55 x H55 x D92.5
Cutout DIA45mm
CRI >90
IP Rating IP54
Globe Bridgelux COB
Warranty 3 Year Residential

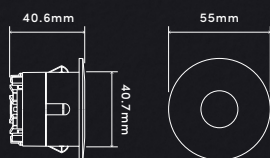

DOWNLIGHTS

PINHOLE

Colour / Finish Black, white or silver
Material Aluminium
Power 5W
Light Output 275, 304 lumens
Colour Temp. 3000K, 4000K
Voltage 220-240V AC
Dimensions (mm) DIA55 x D40.6

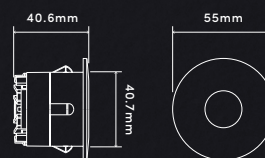

Cutout DIA45mm
CRI >90
Beam Angle 36°
Dimmable Yes
IP Rating IP54
Globe Bridgelux COB
Warranty 3 Year Residential

WALL WASHER

Colour / Finish Black, white or silver
Material Aluminium
Power 5W
Light Output 124, 131 lumens
Colour Temp. 3000K, 4000K
Voltage 220-240V AC
Dimensions (mm) DIA55 x D40.6

Cutout DIA45mm
CRI >90
Beam Angle 20°
Dimmable Yes
IP Rating IP54
Globe Bridgelux COB
Warranty 3 Year Residential
