

## Height-Adjustable Laptop Computer Mobile Desk Cart

### DSM

The single-leg design is ideal for smaller and medium worktops. It is compact and stylish but packs a punch with a 60kg lift capacity. Perfect for the home or for the office where space may be limited. The Electric Sit-Stand Desk will be a great choice for those looking for premium quality in a sit to stand desk.

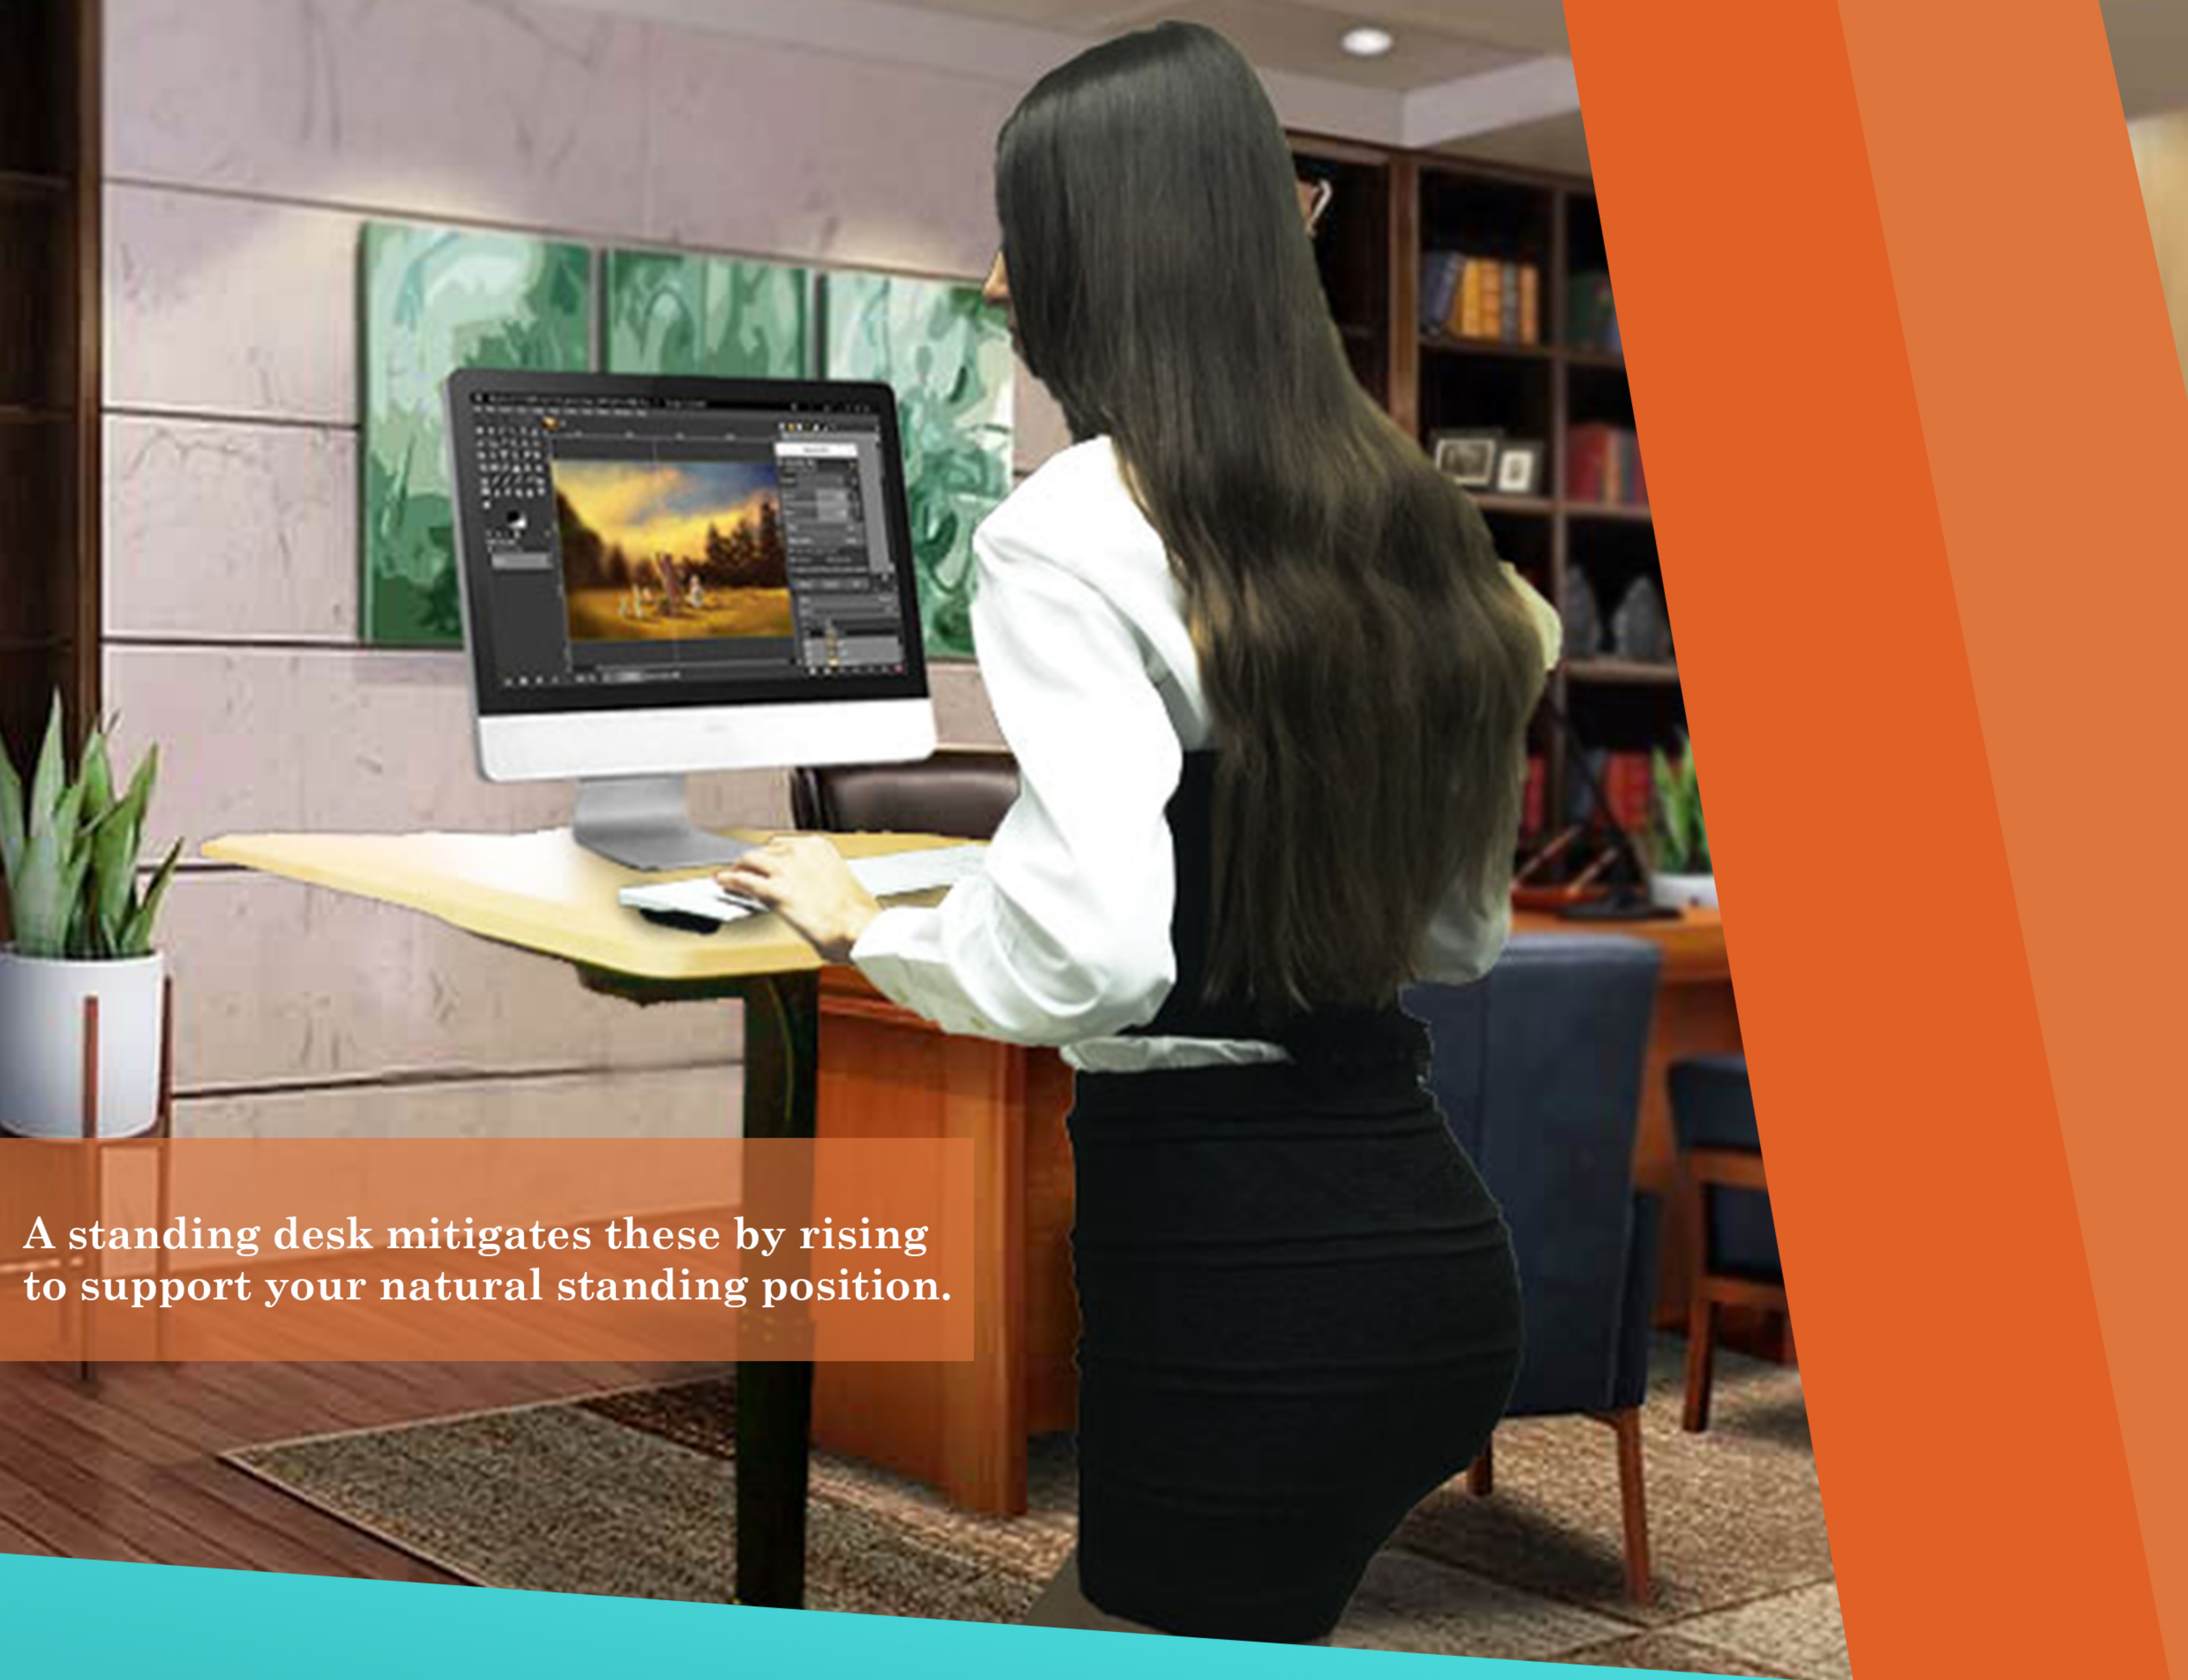

The electric mechanism helps with raising the workstation platform effortlessly from 600mm to 1250mm from the ground.

4 Memory height adjustment preset legs from sitting to standing in seconds with simple press, Elegand LCD control panel for setting to your desired height

Ergonomic top (31.4" x 30") fits almost any size monitor, laptop, or tablet with keyboard.

Easily place the desk cart to any room in your home, office, or apartment on large.

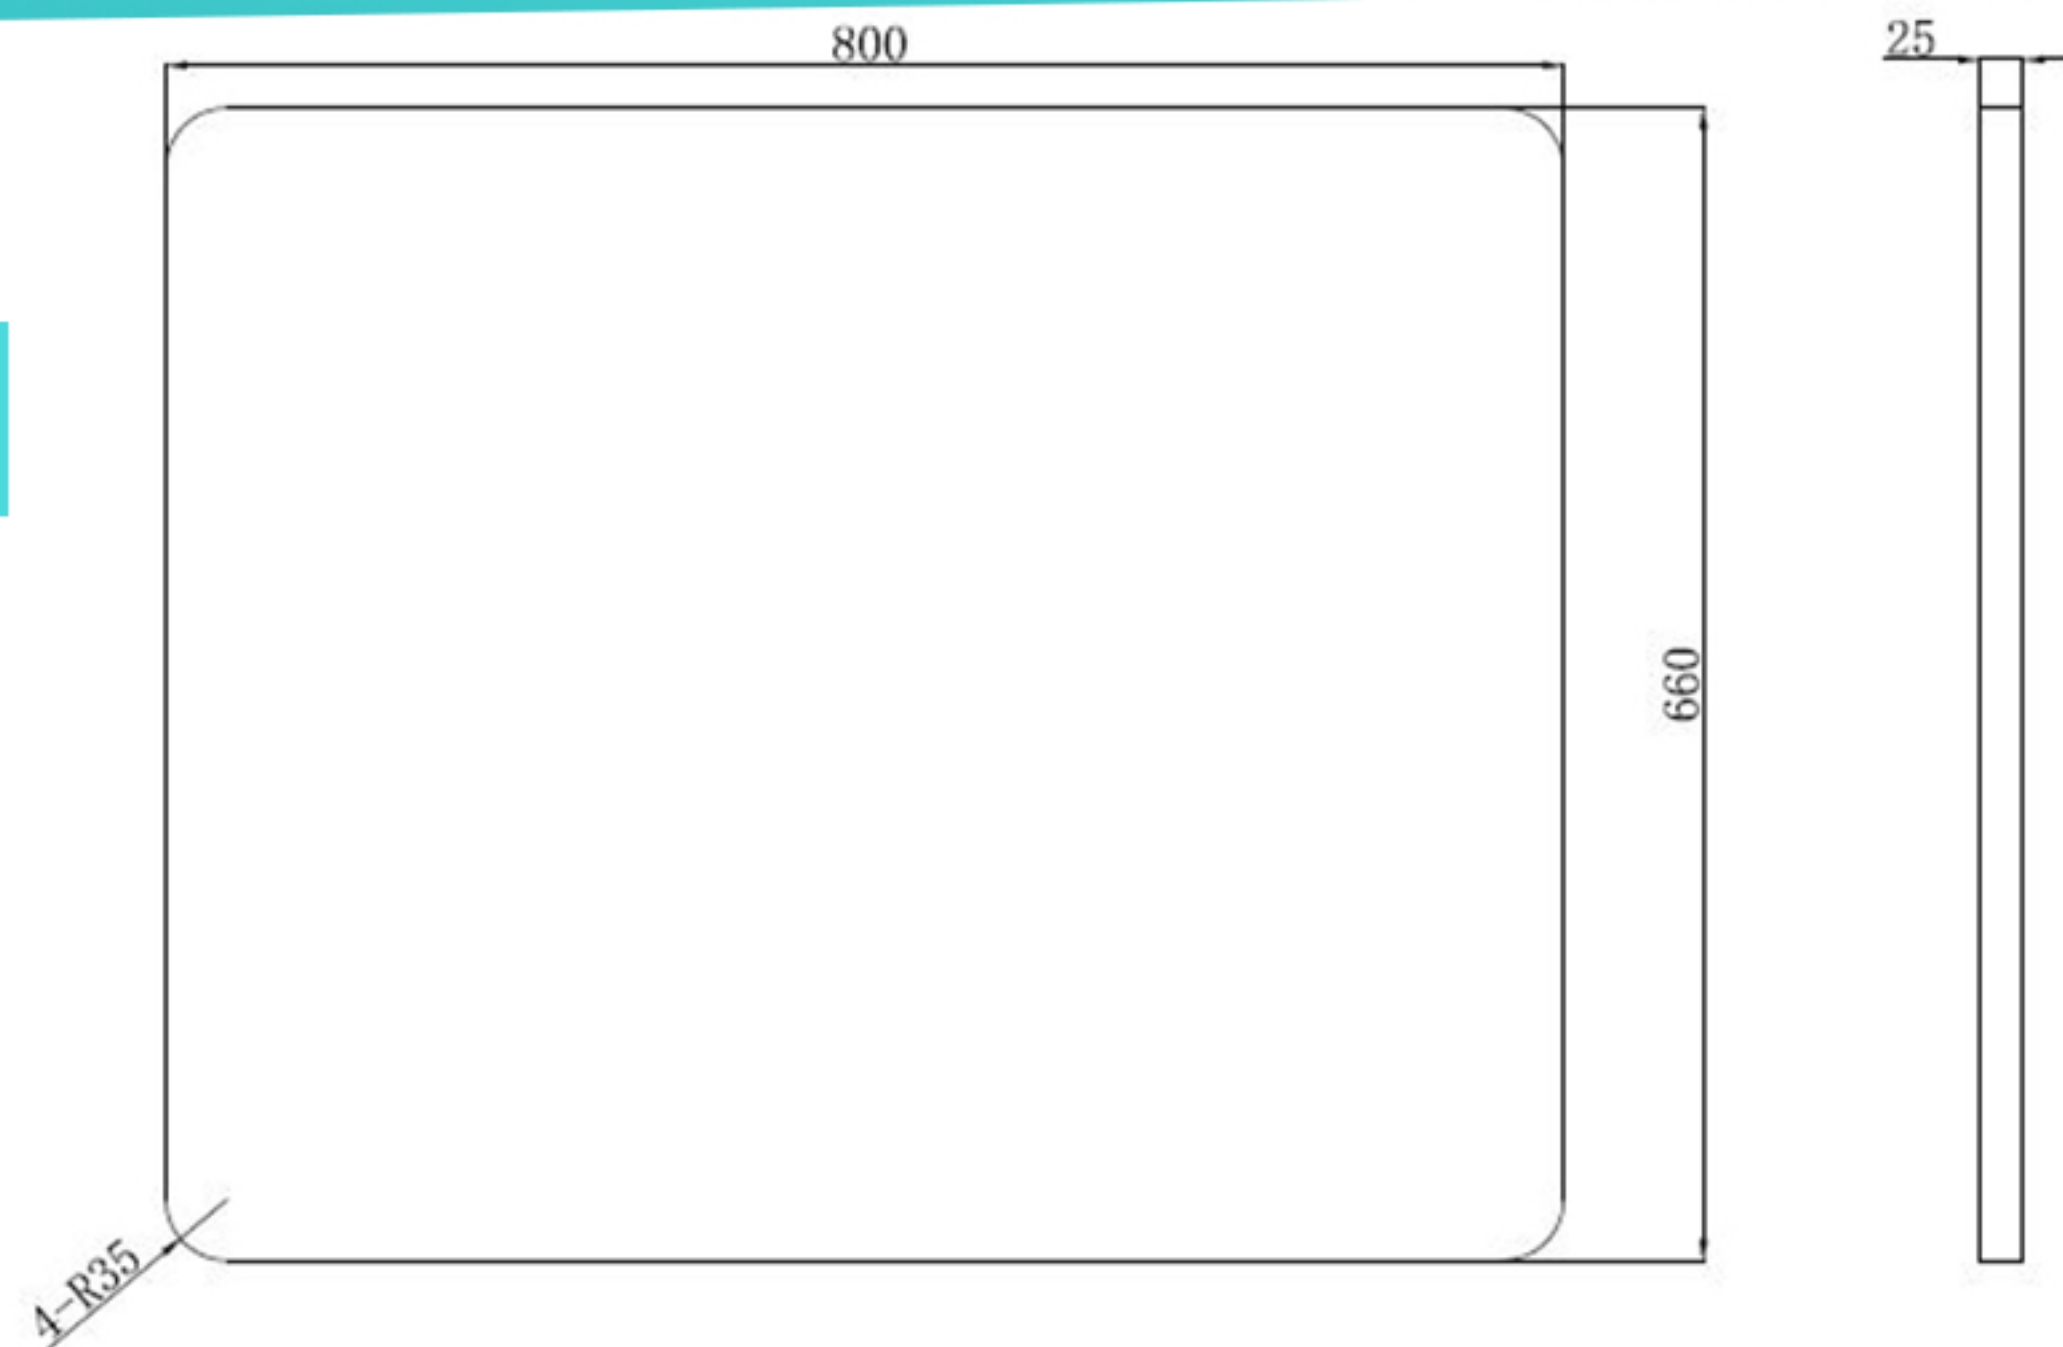

A standing desk mitigates these by rising to support your natural standing position.
