

Dual Monitor Vertical Positioned Desk Stand

Description

This dual vertical LCD monitor mount is constructed of high-grade steel and fits most monitors up to 32 inches. It features 360 degree rotation, tilt, and swivel capabilities for an optimal viewing experience. Mounting your monitors is simple with the detachable VESA plates that screw onto your monitor and slide back into the frame. Fully adjustable joints make this mount easy to position. Fully adjustable joints make this mount easy to position clear up desk space by consolidating two monitors on a single stand 360 degree rotation, 45 degree up and down tilt, and 90 degree left and right swivel for an optimal viewing experience.

Dimensions
