Electric desks allow you to stay active throughout the day and therefore boost your health and fitness and avoid.

German make Okin Motor with a high load capacity. High quality construction: Desk frame is made of cold-rolled steel plate.

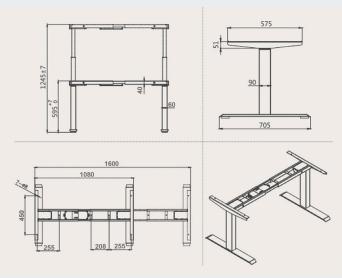

Raise and lower the desk frame from 585 mm – 1245 mm at the touch of a button with digital display controller and store 3 height setting for hands free operation.

ERGONOMIC ELECTRIC DESK

About Product

Feature packed with Dual motor lift mechanism and 3 segment legs - Offers smoother height adjustments, better stabilization and low noise while running. Noise level in running mode is under 50 dBs.. Uses German Brand Okin for Motor Advanced all-in-one keypad-With three programmable presets, you can save your favorite seated, standing, and underdesk cycling heights. Your exact desk height is shown on a display that automatically goes dark to reduce power draw while the desk is stationary. The sit/stand time reminder system also helps alert you when it's time to stand, and can be turned on or off anytime based on your work flow. High quality 2 year motor warranty.
