MOBILE DATA ACCESS

Providing data
where and whenever it's needed

Computer Carts

Laptop Carts

Mobile carts bring critical information to Point-of-Care locations throughout Healthcare facilities. Whether it involves admissions, pharmaceutical, radiological or telehealth video conferencing, daily patient care decisions must be accurately made and supported by the most current data available. AFC's array of durable mobile carts is designed to meet this growing need, while incorporating important ergonomic features that make them adaptable to any user.

Our height adjustable units are available with small footprints for easy maneuvering in tight places. Security features protect both sensitive patient information and computer equipment and our carts are built from materials for thorough disinfection. Long-lasting batteries (Hot Swappable/LiFe/SLA Power Supply) can be loaded so that carts can move from area to area, without being connected to electrical outlets, providing uninterrupted power to your workstation wherever, and whenever you need it.

Whatever your need is, AFC can build a mobile cart solution for you.
