## Electric Desk

The height-adjustable desk helps create a healthier work environment by allowing you to move throughout your day. Switching between sitting and standing throughout a long workday provides several health benefits for the body, such as increased blood flow and enhanced posture. Standing throughout the day also keeps the mind alert and productive while you work.

Easy up and down control provides height adjustment from 28.3 inches to 48 inches, allowing effortless change from sitting to standing work position.

Switching between sitting and standing throughout a long workday provides several health benefits for the body, such as increased blood flow and enhanced posture.

Elegant touch screen controller with customizable settings for desired user heights to get the perfect height more frequently to match your task and mood.

## Ergonomic Benefits

Standing desk can meet your different demands, you can raise the desk to a suitable height to help you relax your back and spine. The height-adjustable power desk is specially designed for the health of your office.

## Strong & Sturdy

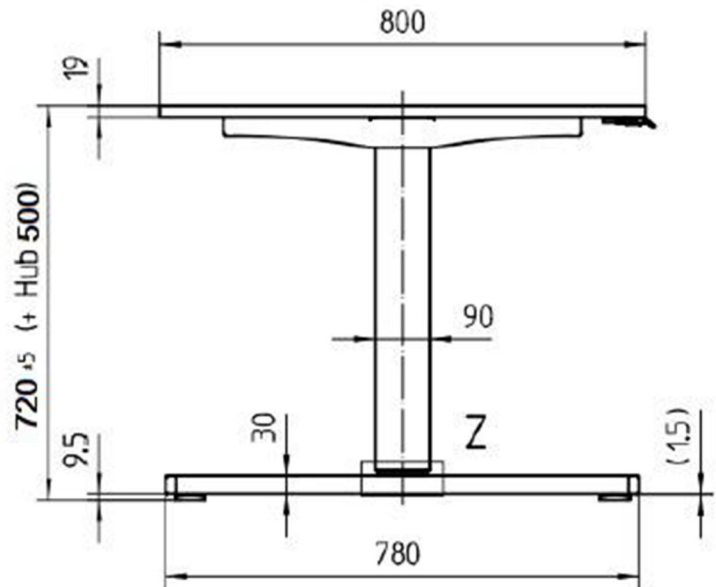

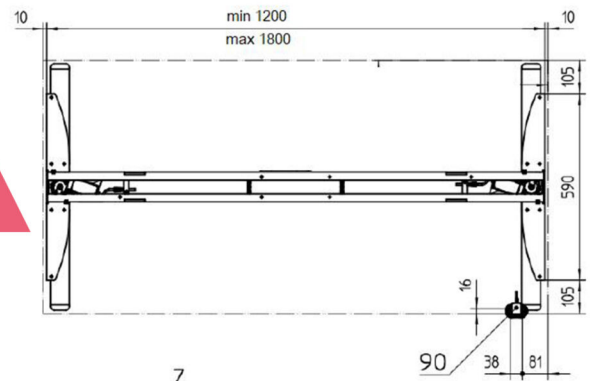

The desk adopts strong metal and aluminium to build the frame, which ensures that the desk has an excellent bearing capacity and longer service time.
