

The full-motion wall mount with vesa hole up to 800x400 for most 37"-70" tv up to 60kg.this mount extends out 500mm from wall and places only 115mm to wall when retracted. It can swivel up to 90 degree left or right and 0~-12 degree tilt for up and down meantime it can provide 3 degree horizontal adjustment to ensure it is perfectly level.

Dual articulating arms are the stronger support for the larger heavy TVs, also give the confidence in the visual aspect

Slim designed, the distance from wall to back of TV is only 70mm when the arm are folded.

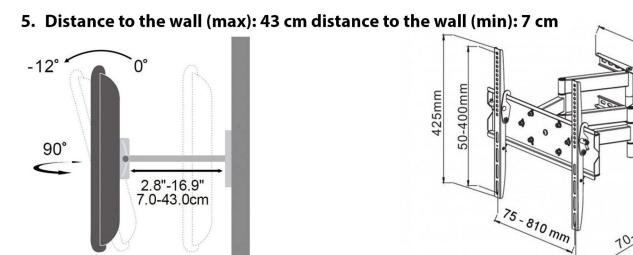

Integrated the level adjustment system, it helps the TV in perfect level even the wall plate was installed mildly out of level
