

Description

This 2-in-1 computer and laptop mount can be flexible to adjust the height, length, and angle. No matter how you sit or stand, it can always adjust the most suitable position for you. high strength durable aluminum alloy holds up to 17.6lbs.

Gas Spring Monitor and Laptop Mount

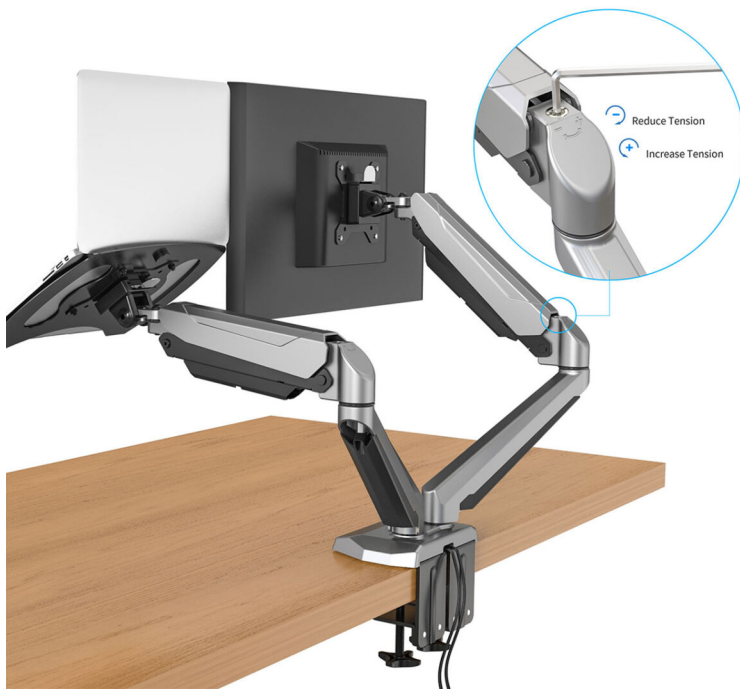

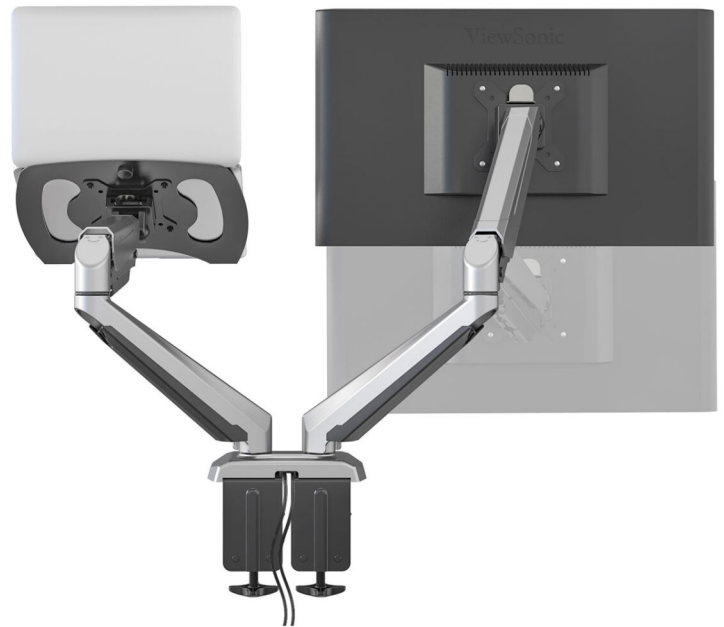

Dual-Monitor Setup

Integrate your laptop display to provide enhanced productivity. The tray lets you adjust the height of your laptop, so that it's in line with your monitor, giving you the same functionality as a dual-monitor setup without having to purchase a second monitor

Free to Movement

Adjust your monitors to the perfect spot, and easily share your monitors with your colleagues when needed. Two independent pivots and arms provide adaptability to meet various needs, such as back-to-back, both side-by-side, & top-and-bottom configurations.

Gas Spring Tension Adjustment

Optimize your Desk Space

Made with high-quality aluminum, heavy-duty steel, and durable gas spring system that prevents wobbling or sagging and holds your monitors securely. The neat environment with a classy appearance adds a modern look to any office.

De-Clutter Your Desk

Elevate your laptop and traditional monitor stand off of your desk. This gives you more surface area for additional hardware or for completing physical tasks such as drafting or reading paper documents. Durable gas spring system that prevents wobbling or sagging and holds your monitors securely. The neat environment with a classy appearance adds a modern look to any office
