

Height Adjustable Standing Desk for Single Monitor (RWP1)

Integrated with pneumatic spring, using the workstation in standing or sitting .position

Color: Black
Suit Size: Single
13"-27" Monitor

Integrated with pneumatic spring, using the workstation in standing or sitting position with just a light lift of handle on right end of platform. The height of monitor and keyboard tray can be adjusted separately. The top surface have plenty space for a full size keyboard, general size mouse pad and working material. Unlike some competitor's products, this workstation can be risen and folded vertically with no forward movement. So the footprint will keep same during the up and down movement. Now you can work without sticking to your chair in full day. It will help to reduce your back pain, improve your blood circulation and shape your body.

This Single Monitor Sit-Standing workstation Fits mostly of 13"-27" Monitors. and it's easy to integrate it into your current layout by simple setting it on your desk.

The top surface have plenty space for a full size keyboard, general size mouse pad and working material

**Large Solid Base:
ensure it stay sturdy
and stable at any
