Create a Premium Audio and Video Conferencing System

Also Compatible with

NEW
Polycom
Studio

Can use with on top of Camer Shelf (Optional) and Extra AV Tray (Optional).

Polycom Studio delivers business-class video features in a USB solution. Automatic group framing intelligently focuses on participants, adjusting the view automatically as they enter and leave the room to ensure everyone is seen clearly. And for the first time ever in a USB device, speaker tracking automatically finds and zooms in on the active speaker so that everyone knows who is talking. Plus, a 4K camera ensures crisp, a lifelike video that brings your meetings to life.
