

SuprScoota®

SS Hd

## PORTABLE AND BUILT TOUGH FOR THE HARSHEST CONDITIONS

### Now with Electronic Stability Control

Finally a truly portable scooter with heaps of leg room and a large 130kg load capacity. Long distance travel in complete comfort or confined indoor use, the choice is yours. Dual motor drive system makes light work of off pavement use and steep hills so you can go anywhere with total security. A super light split frame design ( heaviest part only 10kg ) with seat suspension, the Supascoota HD is designed to handle challenging conditions.

FOLDS AND LOCKS FOR TRANSPORT IN UNDER 10 SECONDS

LONG DISTANCE TRAVEL WITH OPTIONAL SPARE BATTERY PACK
