

## Developer - Part Time

NaturAll Club - Philadelphia, PA

NaturAll Club is a growing startup and revolutionizing the beauty industry! We strive to provide an experience that exceeds every customer's expectations. We are looking for a part-time Full Stack Developer to help support the rest of the team through new technology.

While NaturAll Club is a company that sells physical products, technology has been an important part of our operations from the beginning. The Full Stack Developer will help us take our technology to the next level by supporting internal teams when changes are needed to the website or custom tools/scripts, as well as the exploration of other technologies and tools we're not yet pursuing. You will work with almost every internal team in different ways to support them.

### Responsibilities

- Maintain our current website on Shopify, by making technical changes when necessary and implementing new tools and add-ons.
- Work with internal teams to improve our current website and optimization, and overhaul large parts of the site.
- Building out custom tools through scripting and integration of APIs from our various tools.
- Provide insight into realistic timeframes and costs to implement new technologies or build custom tools.
- Understand the needs of the company to identify the tools we may need in the future and prepare for implementing them.
- Work with Director of Operations to build out an engineering team to support our growing company and its technology needs.
- As the engineering team grows, manage full-time employees, part-time employees, and contractors.

### What we're looking for:

- 3+ years of experience as a full-time developer.
- Proficiency in fundamental front end languages such as HTML, CSS and JavaScript.
- Familiarity with JavaScript frameworks such as Angular JS, React and Amber.
- Proficiency in server-side languages such as node.js, Python, Ruby, Java, PHP, and .Net.
- Familiarity with database technology such as MySQL, Oracle, and MongoDB.
- Familiarity with deployment tools such as Heroku and AWS.
- Familiarity with Shopify API, theming (Liquid), and add-on ecosystem.
- Familiarity with G Suite and Google Scripts.
- Proficiency with version control tools such as Git.
- Excellent written and verbal communication, and problem-solving skills. Can quickly synthesize information to resolve a problem.
- Impeccable organization and attention to detail.
- A self-starter who works efficiently, takes initiative and can think on their feet.
- Analytical, data-driven, and results-oriented.
- Local to the Philadelphia area.
- Alignment with NaturAll Club's mission and values.
