

Woochie® Application

Although most of the appliances can be worn in several places, it is best to check for proper alignment of some pieces. Brush Cinema Secrets® Spirit Gum on the back of the Woochie® appliance anywhere it will be touching the skin. Spirit Gum may also be applied directly to the skin, especially on larger pieces. Position the Woochie® appliance onto the skin in the desired area and press into place. Edges may be trimmed for a better fit. For best adhesion, remove the Woochie® appliance and use the appliance itself (or your index finger) to tack the Spirit Gum with a rapid up and down motion. This will cause the Spirit Gum to become extremely tacky. Then firmly press the appliance back into place. Using a cotton swab or brush, apply Cinema Secrets® FX Blood Gel to any area you desire to have a thick goopy look. For a more realistic look you can add Cinema Secrets® FX Blood, to give you a freshly bleeding look.

Optional Suggestions for a more professional look

For thinner edges, after applying the Woochie® appliance to your skin with Spirit Gum, the edges of the Woochie® appliance may be stippled, using a small piece of White Latex Sponge, with a thin coat of Cinema Secrets® Flesh Latex. Allow this to dry before applying a second coat. A hair dryer set on low will help speed up the drying time. Powder the dried latex when finished.

To add bruises and trauma after the application of the Woochie® appliance, use the Cinema Secrets® Injury Stack and a small piece of Black Stipple Sponge to stipple, using an up and down motion, a small amount of Corpse Yellow, Bruised Red, and Undead Purple. Apply the makeup from the lightest to darkest colors, starting with the yellow in the center of the bruised area and following with the red and purple around the outside edges. Using a piece of white latex sponge blend the colors outward from the center. Powder with Cinema Secrets® Colorless Powder to help prevent the makeup from rubbing off easily. Dust off excess powder with damp towel or tissue.

Removal

Before removing the Woochie® appliance, the excess blood should be wiped off using a paper towel and warm water. Using a small brush or cotton swab work a small amount of Cinema Secrets® Makeup & Adhesive Remover under the edges of the Woochie® appliance. Be careful when working around the eyes, to not get any remover or blood in the eyes. Once removed, remove any residual adhesive or makeup by rubbing more remover into the area. Rinse the skin using a towel and warm water. For additional applications, clean the Woochie® appliance with soap and water and a small amount of alcohol. Let dry and store out of the damaging rays of direct sunlight.

WARNINGS: If you are sensitive to latex, discontinue use.
