

'DEEP DETOX' JUICE CLEANSE

INCLUDES:

Alpha Shot
Superstar
Full of Life
Get Reddy
Rise and Shine
Chai Me

Modern life has seen us inundated with more toxins than ever before. We breathe them in, we eat them, we drink them, we rub them into our skin, we wear them, sleep on them, the list goes on and on.

This cleanse provides a deeper level of cleansing, perfect for the experienced cleanser.

Whilst the body does an amazing job of detoxifying itself, its detox systems can become clogged and sluggish and need help.

Reduces the number of toxins normally ingested, when our systems become overloaded this can inhibit the natural detox process.

FULL OF LIFE: The glucosinolates and sulphur found in kale help to regulate detox activities in our cells. Provides active ingredients that work towards neutralising toxins that may be present in our food.

SUPERSTAR: Uses medicinal grade activated charcoal to help the body to eliminate unwanted toxins.

GET REDDY: Full of plant flavonoids that can improve overall liver function, as well as naturally cleansing and purifying the blood which further acts to boost liver function.

RISE AND SHINE: Packed with vitamin C which is essential to collagen and elastin production, helps to fight UV damage and maintains healthy blood vessels in the skin. It is full of Vitamin A which is an effective wrinkle fighter as it ensures that the skin has adequate moisture retention.

CHAI ME: Provides plant-based protein. Healthy fats help to reduce inflammation in the gut. Almonds contain omega-3 fatty acids which benefit digestion.
