## La pietra che vive\_ Living stone

La bellezza senza tempo della pietra, disegnata dalla natura con texture e venature uniche e irripetibili, in tonalità e sfumature sempre affascinanti per la loro profondità.

Il pregio, che le ha dato un ruolo fondamentale nell'architettura e nel design, e le qualità tecniche, che l'hanno eletta uno dei materiali più importanti in tutte le epoche, caratterizzano le pietre e i marmi di Alivar, selezionate per elevare il design ad un rapporto privilegiato con la natura e con l'arte di creare forme originali. Nella contemporaneità c'è un'eleganza secolare.

The timeless beauty of stone, designed by nature itself with unique, specially made textures and veins and in rich tones and colours which never fail to enchant.

Its calibre, which has given it a key role in architecture and design, and its technical qualities, which have made it one of the most important materials throughout the ages, are characteristic of Alivar's stone and marble, selected to highlight the special relationship of design with nature and art to create original forms. In contemporary style there is a centuries-old elegance.

### **Metallo fascino di curve\_**

Fascinating metal. The allure of curves

Il pregio e la resistenza dell'acciaio inox per le lavorazioni estreme. La leggerezza e la lavorabilità dell'alluminio per le strutture e i dettagli. L'uso dei metalli risponde a precisi obiettivi tecnici ed estetici per unire in una perfetta simbiosi la forza e l'eleganza e portare lo stile verso sensazioni inedite.

The quality and resistance of stainless steel for extreme craftsmanship. The lightness and workability of aluminium for structures and details. The use of metal meets precise technical and aesthetic aims in order to perfectly combine strength and elegance and take style to a unique level.

**L'essenza del legno\_**  
The essence of wood

La vitalità del legno sta nel dinamismo delle venature, nell'incantevole chiaroscuro del colore e nel calore dell'atmosfera che sa creare attorno a sé. I legni Alivar sono il frutto di una selezione accurata tra le essenze tradizionali e quelle più originali, una ricerca mossa dalla passione per questo materiale straordinario che non finisce mai di sorprendere e di ispirare il design. Arte ebanistica e natura si fondono in mobili sempre meravigliosamente attuali con lavorazioni di alta qualità. Tutti i legni vengono utilizzati nel pieno rispetto della sostenibilità ambientale.

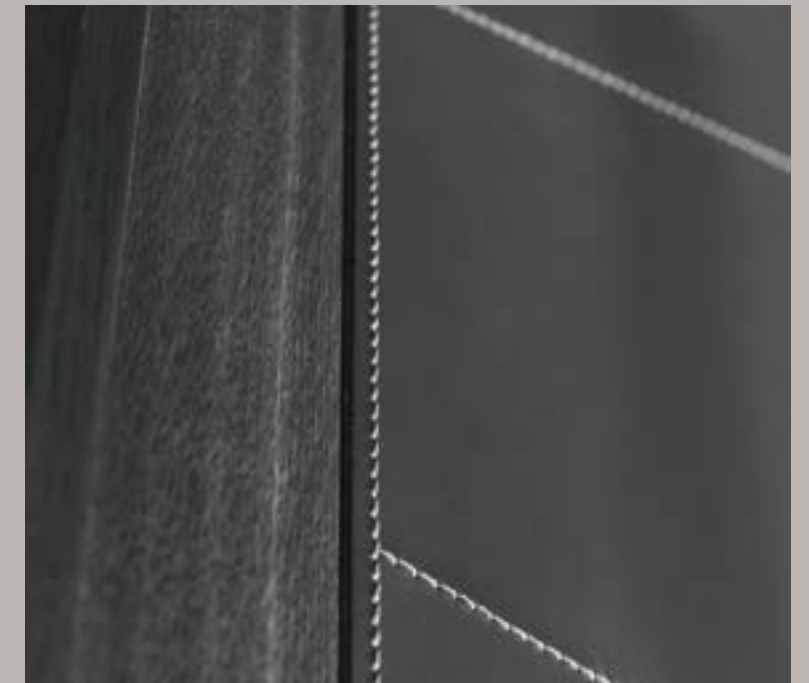

Wood owes its vitality to the dynamic nature of the veins. Its enchanting light and shade effects and the warmth of the atmosphere it creates around itself. Alivar's wood is painstakingly chosen from traditional types of wood and more original ones, a research driven by our passion for this exceptional material which never ceases to surprise and inspire design. The art of woodwork and nature come together to create gloriously modern furniture with high-quality finishes. All wood is used in an environmentally-friendly way.

**Cuoio: segni creativi\_**  
Hide: signs of creativity

La morbidezza, l'elasticità, il piacere del tocco. Il cuoio è un materiale ad alta traspirabilità da sempre usato per il suo essere straordinariamente versatile. Nella casa Alivar, il cuoio lavorato con il gusto per l'artigianalità porta il senso deciso della natura, creando il calore del comfort con l'emozione della materia.

With its softness, flexibility and pleasurable feel, hide is a very breathable material, its extraordinary versatility making it a top choice since time immemorial. At Alivar, our hide is made with a taste for craftsmanship and has a definite natural feel to it, bringing warmth of comfort with the excellence of the material.

## Natural beauty

---

Uno scrigno modernista che si apre all'aria aperta per un dialogo continuo tra indoor e outdoor.

Lo spettacolo si accende ogni giorno quando la luce filtra dalle vetrate e avvolge di calore l'interno.

Uno sfondo neutro dalle geometrie ordinate dove diversi ambienti comunicano tra di loro, l'ariosità è tipica da open space, ma con privacy garantita.

Una scelta di arredo contemporanea che lascia gli ambienti abbastanza vuoti per valorizzare l'architettura degli spazi e la diffusione della luce naturale.

A modernist open-air jewel case for a continuous dialogue between indoors and out.

The performance begins each day when the light filters through the glass, enveloping the interior in its warmth.

A neutral background with tidy geometric shapes where various environments communicate, creating the airy feel typical of open spaces, but guaranteeing privacy.

A contemporary design choice leaves spaces quite empty to focus on the architecture and allow the diffusion of natural light.

## A home full of light

La luce e la trasparenza sono il leitmotiv di una casa che "si apre all'esterno", in comunicazione con l'ambiente circostante. Il linguaggio è quello della purezza del bianco e della materialità del nero, della geometricità e dell'essenzialità di elementi dal design ricercato e dalla spiccata praticità. L'imponenza dei grandi spazi entra nella casa minimal. Brillantezza e trasparenza vestono e caratterizzano gli ambienti, per abitare a luce naturale. Il colore bianco, i materiali innovativi, il design lineare e le soluzioni altamente tecnologiche vestono e personalizzano i diversi ambienti.

The use of grand spaces are found in the minimalist homes. The atmosphere is bright and transparent, using natural lighting. The white colour, innovative materials, linear design and technological solutions are found in the various rooms. Light and transparency are the essentials of a home that "interacts with its external environment" to communicate with its surroundings. The language speaks of the purity of white and the materiality of black, of the geometrics and essence of sophisticated designer elements and outstanding practicality.
