

EARTH DAY PLEDGE

To help take care of our Earth, I promise...

I will help recycle.

I will try to use refillable water bottles instead of disposable plastic bottles.

I will turn off the taps while I'm brushing my teeth to save water.

I will give toys and books I no longer use to friends or charities to reduce waste.

I will turn off lights to save energy when I'm not using them.

I will respect the plants and animals that share our Earth.

What other ideas do you have to help protect planet Earth? Write them below.
