Enjoy crisp and cool evenings with friends around our Huntington Fire Pit Table. The rectangle shape is great for large outdoor patio spaces and makes it ideal for hosting both friends and family. Table offers a large usable surface to enjoy finger foods and beverages. The Huntington Fire Pit Table is handmade in the USA with Glass Fiber Reinforced Concrete (GFRC) which gives it the ability to withstand the heat created from the table as well as endure the outdoor elements for many years to come. It offers clean lines with both a modern and industrial style look. This concrete fire pit's neutral earth tone makes it easy to pair with other modern patio furniture sets and colors. At 65,000 BTU's, the rectangle propane fire pit table provides both warm at ambiance and is compatible with both propane tanks or a natural gas line. For propane option, the table will work with standard 20# propane tanks (same as most barbecue grills). The Huntington Fire Pit Table modern propane fire pit comes in several different finishes if you are looking for something with a pop of color.
