The Pebble Beach Fire Pit Table is a Unique Design you just wont find anywhere else. This fire pit design resembles a giant Seaside boulder you would expect to find along the rugged coastline in Big Sur with giant waves crashing into it to naturally form its shape.

The Pebble Beach Fire Pit was designed with a vision of modern luxury in mind. You wont find a more artistic or natural looking design with the Boulder shape and natural curves and flames flickering off the top once lit. Handcrafted in the USA.
