STRING ART KIT

INSTRUCTIONS

KIT MATERIALS:

250 PUSH PINS

1 PEACE SIGN FOAM BOARD

1 BUTTERFLY FOAM BOARD

1 LIGHTNING BOLT FOAM BOARD

8 BUNDLES OF EMBROIDERY FLOSS:

1 Bundle Dark Yellow, 1 Bundle Bright Yellow, 3 Purple Ombré Bundles, 3 Pastel Rainbow Bundles

1 LED LIGHT STRING
Batteries Not Included

1 HOOP-AND-LOOP FASTENER

IMPORTANT:

The push pins can be sharp, so it is important to work at a table or other hard surface in case the pins are pushed through the back of the foam board.

LET'S GET STARTED!

1 CHOOSE YOUR FOAM BOARD

Choose the shape you want to work on first and grab all the materials that go with it:

- Butterfly:** Purple Ombré Embroidery Floss
- Lightning Bolt:** Dark Yellow Embroidery Floss, Bright Yellow Embroidery Floss, LED String Lights, Hoop-And-Loop Fastener
- Peace Sign:** Pastel Rainbow Embroidery Floss

Watch instructions video here

2 PLACE THE PINS

Push one pin into each white dot on the foam cut out. For the best results, follow the guided dots.

You only need to push them in about halfway to secure the pin. Don't push them through the back of the foam.

3

STRING IT

Once you have placed all the pins, you are ready to start stringing your foam boards!

BUTTERFLY

Purple Ombré Embroidery Floss

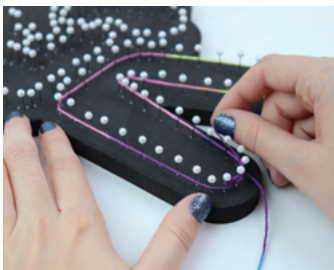

1. Tie a knot around one of the pins on wing 1 and pull tight to secure.
2. Create an outline around wing 1. Every once in a while, wrap the floss around a pin to secure it.
3. Fill in the middle of the shape by zig-zagging the string in all different directions.
4. Once your wing is filled, tie a knot around any of the pins around wing 1 and cut the excess string off.
5. Repeat all steps for wing 2.

PEACE SIGN

Pastel Rainbow Embroidery Floss

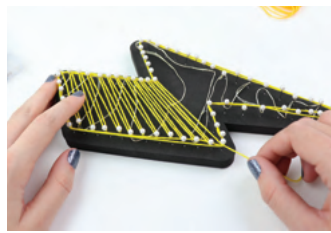

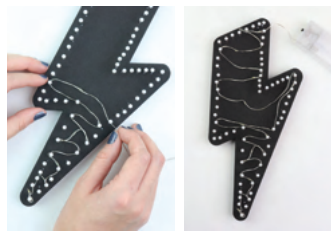

1. Tie a knot around one of the pins on finger 1 and pull tight to secure.
2. Take the embroidery floss and completely outline the pins surrounding fingers 1 and 2.
3. Fill in the middle of the shape by zig-zagging the floss across fingers 1 and 2.
4. Tie a knot around any of the pins on fingers 1 or 2 and cut the excess string.
5. Repeat steps for sections 3-5.

LIGHTNING BOLT

Dark Yellow Embroidery Floss, Bright Yellow Embroidery Floss, LED String Lights, Hoop-And-Loop Fastener

1. Start by wrapping the end of the string lights around one of the bottom pins. Going from the bottom of the lightning bolt to the top, zig-zag the lights around the pins.
2. Take the bright yellow embroidery floss and tie a knot around any pin. Pull tight to secure.
3. Create an outline around the entire lightning bolt. Go back and forth as many times as you want.
4. Fill in the middle of the shape by zig-zagging the string across the lightning bolt.
5. Tie a knot around any of the pins and cut the excess string.
6. Grab the dark yellow embroidery floss. Tie a knot around the bottom pin. Pull tight to secure.
7. Outline the pins along the left side. Go back and forth as many times as you want.
8. Tie a knot around any of the pins on the left and cut the excess string.
9. Attach hoop-and-loop fastener to the back of the foam and the back of the battery pack. Attach together.

@Ta-da!

You did it - great job!

Now show it off:
