

KINGSBOTTLE 2017

Simple

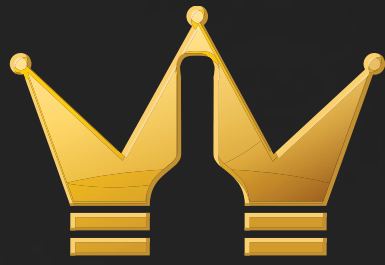

Simplify the product line, focus on those products which are popular, high quality and meet the consumers' real needs.

Quality

Improve the product performance by upgrading components and parts, such as compressor, fans, switch power supply and temperature controller, etc.

Service

Fast response and efficient service to satisfy customers, enhance the reputation of KingsBottle in the market.

KingsBottle™

Coolers Fit for a King

COOLERS FIT FOR A KING

KingsBottle is a global brand, offering the highest quality refrigeration products. We specialize in free standing, built in and under counter wine and beverage coolers. Our "mix and match" stainless steel models allow for a variety of wine and beverage cooler combinations.

After a decade of research, we have figured out what it takes to create the perfect refrigerated wine coolers. We looked closely at the other top products on the market and asked ourselves what they were missing. Using that knowledge we set out to create superior wine and beverage coolers that give you sleek style and solid durability. Our coolers include the most sought after features and are designed to fit into any room of the house. We understand the nuances of a perfectly chilled beverage.

KingsBottle is a well known and well respected brand across Europe, Asia and Australia. We are pleased to bring you reliability, exceptional quality, and incredible value straight from our factory to you. KingsBottle stands by our 100% satisfaction guarantee. We are confident that once you experience a KingsBottle cooler, you won't be satisfied with anything else on the market

PREMIUM WINE COOLERS

WINE COOLERS SINGLE ZONE OR DUAL ZONE

At KingsBottle, we know and appreciate all that goes into making a fine bottle of wine. We also know that improper storage can ruin any bottle. After all of our research we have come up with our own line of refrigerated wine coolers that combine all of the most sought after elements into one unit. We know what it takes to create the perfect wine refrigerator.

Having the perfect place to store those precious bottles wasn't enough. We wanted to make sure that every unit we crafted had a simple, sleek, and clean style that will add value to any room. Whether you want your KingsBottle refrigerated wine cooler to be the center of attention or to remain, elegantly, in the background, we have you covered.

Key Features:

- High quality compressor runs quieter and offer vibration free cooling.
- Premium digital display controllers for exceptional reliability.
- A fan-circulated air cooling system, with state of the art fans, ensure air distribution and temperature uniformity throughout the cabinet.
- Gas charged, tempered safety glass door with double UV coating to protect contents from incandescent and fluorescent lighting.
- Optimized, non-warping, hardwood shelves to fit a variety of wine bottles and maximize storage capacity..

What's new in 2017 ?

Our single zone wine coolers are equipped with a premium, Italian brand Carel controller. Renowned for its reliable performance, exceptional temperature control, and precision cooling, defrosting and energy management. Our dual zone wine coolers feature a quality control board and digital display which manage the balance of separate but connected compartments allowing for wine storage at two temperatures.

With the move to Embraco compressors, we have partnered with an innovator in the compressor industry. At the heart of our units is a leading edge compressor, produced by a company known for its quality and reliability. The result is quiet cooler with quality, stability, durability and energy efficiency. Coupled with our industry respected fans create a cooler worthy of the KingsBottle name.

Finally, as a testament to our confidence and quality, our manufacturer's warranty coverage is being extended to 2 years from date of purchase.

Our stainless steel model has been redesigned with a sleek and modern straight rod handle. We are pleased to announce that our dual zones will now be offered in our elegant, full glass door style.

BEVERAGE COOLERS

We at KingsBottle don't just appreciate wine. We know the magic that is a perfectly cooled beverage. This is why we also specialize in all types of beverage coolers. Whether for commercial or personal use, our care and attention to detail is the same. We take pride in providing the best beverage coolers available on the market.

We know that it is not enough just to keep your favorite beverages cold. This is why we make sure that all of our beverage coolers are the ultimate combination of function and style. Whether you're buying one for your commercial bar or are looking to amp up your game room, KingsBottle has the right cooler for you.

Key Features:

- High quality compressor runs quieter and offer vibration free cooling.
- Premium digital display controllers for exceptional reliability.
- A fan-circulated air cooling system, with state of the art fans, ensure air distribution and temperature uniformity throughout the cabinet.
- Gas charged, tempered safety glass door with double UV coating to protect contents from incandescent and fluorescent lighting.
- Thick and strong chromed steel shelves avoid the bending.

What's new in 2017 ?

Our beverage coolers are equipped with a premium, Italian brand Carel controller. Renowned for its reliable performance, exceptional temperature control, and precision cooling, defrosting and energy management.

With the move to Embraco compressors, we have partnered with an innovator in the compressor industry. WINE & BEVERAGE COMBO

Standalone or Side by Side

Traditionally, there have been wine connoisseurs and beer connoisseurs, which means two different storage temperatures. KingsBottle is proud to break this tedious tradition with our innovative dual temperature wine and beverage coolers. Now you can enjoy an icy cold beer or a gently chilled bottle of wine all from the same unit! All of our combo units are perfect for bars, restaurants or that perfect home entertainment room - they have a little something for everyone. These units are so popular we have trouble keeping them in stock! We know that whether your favorite beverage is a well-aged glass of wine, a hoppy micro brewed IPA, or your favorite soda pop, the serving temperature can take your drink from "good" to sublime and we believe that every drinking experience should go above and beyond your expectations. KingsBottle can bring even more flavor to your drink. Cheers !
