

BEVERAGE COOLERS

We at KingsBottle don't just appreciate wine. We know the magic that is a perfectly cooled beverage. This is why we also specialize in all types of beverage coolers. Whether for commercial or personal use, our care and attention to detail is the same. We take pride in providing the best beverage coolers available on the market.

We know that it is not enough just to keep your favorite beverages cold. This is why we make sure that all of our beverage coolers are the ultimate combination of function and style. Whether you're buying one for your commercial bar or are looking to amp up your game room, KingsBottle has the right cooler for you.

Key Features:

- High quality compressor runs quieter and offer vibration free cooling.
- Premium digital display controllers for exceptional reliability.
- A fan-circulated air cooling system, with state of the art fans, ensure air distribution and temperature uniformity throughout the cabinet.
- Gas charged, tempered safety glass door with double UV coating to protect contents from incandescent and fluorescent lighting.
- Thick and strong chromed steel shelves avoid the bending.

What's new in 2017 ?

Our beverage coolers are equipped with a premium, Italian brand Carel controller. Renowned for its reliable performance, exceptional temperature control, and precision cooling, defrosting and energy management.

With the move to Embraco compressors, we have partnered with an innovator in the compressor industry. At the heart of our units is a leading edge compressor, produced by a company known for its quality and reliability. The result is quiet cooler with quality, stability, durability and energy efficiency. Coupled with our industry respected fans create a cooler worthy of the KingsBottle name.

Finally, as a testament to our confidence and quality, our manufacturer's warranty coverage is being extended to 2 years from date of purchase.
