

Wall Mounted Wine Racks Assembly Instruction

Be applicable for same type wall mounted wine racks

1.Parts Included

1 Bottle Neck Holder Strip(A)

1 Bottle End Holder Strip(B)

Screws

Plastic Screw Hole Covers

Drywall Plugs

2.Tools Needed

1 Tape Measure

1 Screwdriver

1 Level

1 Pencil for marking

3. Instructions Steps

1.Choose Bottle Direction:

Two different holder strips,one for bottle neck(B) and one for bottle end(A).

2.Layout:

- Strip A/B should be marked 6.985 cm away from nearby walls or obstructions.
- Measure 19.05 cm' from Strip A to Strip B
- For multiple columns,recommended distance between two racks is 13.97cm.

3.Fastening bottle supports to wall:

- (1) After layout complete,using a level to ensure Bottle support Strips are vertically level before mounting.
- (2) Fastening screws to wall through the pre-drilled mounting holes in Bottle Supports Strips.Please note it to use drywall plugs when installing to protect wall.
- (3) Using screws hole caps to cover screw holes once all bottle Support Strips secured.
