

MITRA SHIRODHARA SET

#72002-02

Our attractive MITRA Shirodhara Oil Set features solid beech wood, copper, and a sturdy base with locking casters. Whether you offer Shirodhara currently or are considering adding it to your menu, the stability, quality, and beauty of the Mitra's design makes it an attractive option. The hand-crafted solid copper Shirodhara vessel, collection bowl and pitcher will add an exotic spark to your room's decor. Rounding out the copper accents, a patterned copper band secures the two-piece beech pole, adding another touch of copper to distinguish the MITRA from ordinary shirodhara sets. The hanging vessel is fitted with an oil release and stop valve which is accurate and easy to operate. The weighted base with locking casters offers mobility with stability. The Mitra Shirodhara Set fills a void in the USA for an authentic, well-crafted Shirodhara stand.

If you are interested in other Shirodhara equipment, oils, or accessories, please contact TouchAmerica's customer service. The Mitra is imported from India and available to ship parcel within the US.
