

Identifying Your Dock Leveler Spring

The more information we have, the easier it will be to identify your spring.

Leveler Brand _____

Outside Coil Diameter _____

Leveler Model _____

Wire Size _____

Spring Length _____

Coil Count _____

SPRING LENGTH

Measure from hook to hook on the **inside** of the hook.

OUTSIDE DIAMETER

Measure from the **outside** of the spring.

WIRE SIZE

Way 1: Use a digital caliper.

Way 2: Count 20 coils divide the length by 20.

COIL COUNT

Face the hook open ends up, then count the spring's coils from end to end.
