

A TRUE GAME CHANGER

The economic rules have changed, and our results prove it, period.

This is not your regular company model, it's unique in many ways. Here are just a few.

This model can pause and restart with no penalties to our Participants, or model.

This model responds to pure sales results, so when sales start, so do payoffs.

This model is engineered to enable our Participants to benefit, with minimal effort.

This model is structured as to be *doable*; it's much easier than most models.

This model has No Failure Mechanisms - buying or selling, in any amounts, and at any time is Perfect, with no minimums, so it effectively means Nobody Fails in Ten Block. This signals incredible opportunity for those who do wish to hold meetings and sign up others because, as you just read, Nobody Fails.

This model will sponsor all Participants, until Participants can sponsor themselves.

This model has a High Ethical Standard, so ask our Participants to get The Truth.

This model protects its Field Agents, Volunteers, Guardians, Directors, Sponsors, all its Participants, and all Friends of Ten Block, period.

WHAT IS Ten Block?

To all concerned parties: here's a heads up on what Ten Block is all about, what our results are, what we have already changed, and our future plans.

This is "Ten Block Mechanism" and, in reality, it runs like a mechanism, not like a stereotypical company. Your stereotypical companies are concerned with profits, as they should be, for their investors who depend on them for their incomes.

However, Ten Block is not typical of those models, so while profits are important, what's of optimal importance is "The Transfer of Profits," hence "The Transfer of Wealth."

By doing so we also effectively *Reversed the Economic Inequality* of our Participants.

Our Participants can acquire possible payoffs in reasonable amounts at reasonable prices, and all within a doable program, and within a (testable) economic safety zone.

IS EVERY WORD ABOVE TRUE?

ACTION TALKS - WORDS ARE WORTHLESS

Unlike others who are professing to know how, or writing a book, or who have made an abstract of how to "transfer wealth and reverse economic inequality," we have already started The Tangible Transfer of Wealth, and we have already Tangibly Reversed the economic inequality to those who participated with us.

We can boldly say that Ten Block is the Tangible Transfer of Wealth and Ten Block is The Tangible Reversal of Economic Inequality, not just with words, but by our Past Actions, and our Past Tense Results.

Transfer of Wealth: occurs whenever profits are captured and redistributed to others.

Below is a sample of The Past Results, and The Past Payoff Results, and these results demonstrate tangible wealth was transferred.

Reversal of Inequality: occurs whenever those who could not become ability enabled.

Please note that our Past-Tense Results demonstrate our Participants are equality enabled.

True and Legal: occurs whenever distribution is transacted within legal standards.

These are Tangible Profits from practical items distributed by Ten Block Participants. These profits were captured from the typical circular flow, and from the typical business model, and were: Transferred, and Redistributed to our Participants in equitable amounts, e.g. the more Ten Block Chips Rewards = More payoffs, simple, effective.

NEW and UNIQUE

No business model, no organization, no fund, no government, NOBODY, has ever attempted to build a model like Ten Block Mechanism, period.

Ten Block is here to Signal True and Legal Opportunity, within True and Legal format, and there are NO OTHERS as of this time, but we will soon

train others in order to help others. Take your time and test all you want because while most other company models would love for you not to

Severely Scrutinize their Concepts, you will find the very opposite here. Ask, test, prove, and track the results. The results are the results, No Words

Needed. You will find out why we have such a high volunteer rate, and why so many people want to not just participate, but want to help Ten

Block.

ALL THE ABOVE IS TRUE. My name is Carlos and since every word I say - is true . . . whatever.

May logic and reason prevail, may you prosper. (M/D-00)
