Celtic Cross Project
INSTRUCTIONS

Before you begin, we recommend watching our **YouTube** tutorial video which goes over these steps in greater detail:

Search "How to Forge a Celtic Cross" or go to:
https://youtu.be/NsxtblDENBI
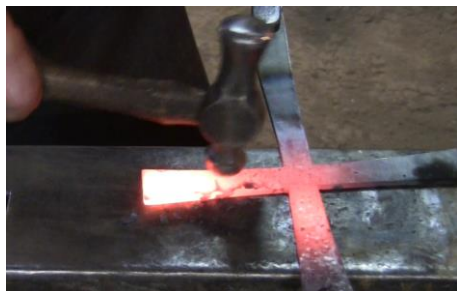

FORGING A CELTIC CROSS

1. On the back piece, use a butcher tool to fuller in a groove where the ring meets the cross.

2. Texture the ring with a ball-pein hammer using rapid, light blows.

3. Use a hot set or an edging chisel and fuller in a groove at the end of each arm of the cross.

4. Take a ball pein hammer and texture the front piece as desired.

5. Finish by plug welding or riveting together.

You have finished your custom celtic cross!
Mount a hook to display on the wall, or leave as is.

There many styles and designs that can be made from Celtic Cross Projects!
