

## Belt Size Guide

1. Traditionally, you can use your pant size to determine your belt size, but this can be inaccurate based on where you wear your pants.
2. Alternatively you can use a well fitting belt you already own and measure it from the base of the belt buckle to the most used hole(see image below for reference.)
3. Another option, is to use a measuring tape, wrap the tape around the point of your waist were you wear your pants.

Once you have your measurement, you can pick a belt that includes your size. If you're unsure of your size, please contact us and we'll do our best to assist.

Large(35"-38"| 89cm- 96.5cm)

X-Large(39"-42"| 99cm- 106.5cm)
