

PLASTIC NO THANK YOU.

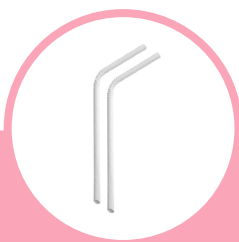

Is your business prepared
for the July plastic bans?

 ecoware

The government is phasing out single-use plastics to address plastic pollution. These bans include bioplastic and compostable plastic items.

After 1 July 2023, the manufacture, sale or distribution of single-use plastic produce bags, plastic plates, bowls, cutlery and straws will be banned. This is part of a broader ambition to move Aotearoa towards a low-waste economy.

PLASTIC STRAWS

Includes compostable bioplastics.

PLASTIC CUTLERY

Includes compostable bioplastics and cutlery that is integral to the packaging of a food product.

PLASTIC TABLEWARE

Includes single-use plastic bowls, plates and platters

EXCLUSIONS

Plastic containers

(e.g. a plastic bowl or plate that is part of a container with a lid. Note: polystyrene bowls and containers with lids (plastic type 6) have already been banned.)

Plastic items that are not used for eating or preparing food

(e.g. measuring spoons or scoops such as those provided with medicine, supplements, infant formula or washing powder)

Tableware made of other materials

(e.g. paper, bamboo or sugarcane pulp) that is plastic lined.

ALTERNATIVES TO Plastic Straws

Ecoware straws are 3-ply paper and 100% biodegradable, made of responsibly and sustainably sourced paper, bound with food-grade glue and printed with non-toxic water/soy-based inks.
