PRECIOUSLY

Tattooed Accessories

Carole Tessier is an interior designer fascinated by contemporary art. She lives in Paris, New York and Monaco, raising her 5 children. Eager to create and passionate by fashion, the designer housed her label in the former Art Gallery of the collector Larry Gagosian, 4 rue de Ponthieu in Paris 8th arrondissement.

The meeting of a luxury accessory with original designs and motifs has produced a unique concept. Carole Tessier's creations are adorned with all kind of precious stones, pearls and golden threads. Impressed by the value and the expertise of French

craftsmanship, she works hard to get perfect results from professional. Tattooing is considered a permanent marking of the skin and can be compared and likened to embroidery because the thread also gets through the fabric.

Roy Lichtenstein, Basquiat and many other famous artists inspired embroideries of smart evening bags, ipad bags and precious bags. By Preciously designs are still secretly distributed, produced in limited editions, just like a rich treasure.
