

6000BU-3900IA

PROFESSIONAL STEAM BOILER W/ HIGH PRESSURE IRONING STEAM WAND

The 6000BU provides 60 PSI of steam pressure and up to 6 hours of continuous steam and is the fastest and most efficient way of delivering professional results. Paired with the 3900IA Ironing Steam Wand, it produces dry pressurized steam perfect for a wide variety of materials and applications.

Unlike a conventional steam iron, the 3900IA's unique ergonomic grip/handle can be used comfortably in any position, whether it's vertical like a steamer or horizontal like an iron. The aluminum soleplate provides more heat than our 3800IA brush and allows the user to press "nooks and cranny's" that would be challenging or impossible with a standard steam iron.
