

8000BU-3800IA

PROFESSIONAL STEAM BOILER W/ HIGH PRESSURE STEAM BRUSH

The 8000BU provides continuous steam for an unlimited amount of time when it's hooked up to a direct water line or with the available 2 gallon water container. There's no more down time waiting for the boiler to re-pressurize. Paired with the 3800IA Steam Brush, it produces dry pressurized steam perfect for a wide variety of materials and applications.

Unlike a conventional steam iron, the 3800IA's unique ergonomic grip/handle can be used comfortably in any position, whether it's vertical like a steamer or horizontal like an iron. The synthetic bristles brush and steam the fabric at the same time, allowing the steam to penetrate and relax the fibers. For more delicate fabrics, we also offer a natural horse hair brush.
