ESCARGOT

RESTORATIVE MOISTURE BOOSTER
& CELL REJUVENATOR

A preventative formula made to brighten, hydrate, and revitalize normal to dry skin types. This **unique formula** with snail mucin, hyaluronic acid & collagen deeply moisturizes skin tissue to achieve impressive results. Revives and rejuvenates skin, creating a healthy, well-rested look.

The magical chemical properties of snail slime comes from its particular composition of glycosaminoglycans and peptides. Snail secretion filtrate is naturally rich in glycosaminoglycans. Glycosaminoglycans are amazing because they can bind nearly 1000x their weight in water.

Hyaluronic acid is one of these naturally occurring glycosaminoglycans in your dermis. This moisture buffer is necessary to protect the parts of the cell that contribute to collagen and elastin. Our serum effectively improves the appearance of aging concerns; dry skin, fine lines and elasticity. **Escargot** is a luxurious serum like no other snail slime on the market!

If you want to take your skincare regimen to the next level consider pairing this serum with Scalpa's Beetox, Peptide Cocktail, Renewal Exfoliating acid and Scalpa's 5 Step Skincare Set.
