- Bonding glue
- Lifting solution
- Fixing solution
- Nourishing lotion
- Disposable micro swabs and spoolies
- Scissors
- Y combs
- Lash rods

SCALPA

LASH & BROW LAMINATION KIT

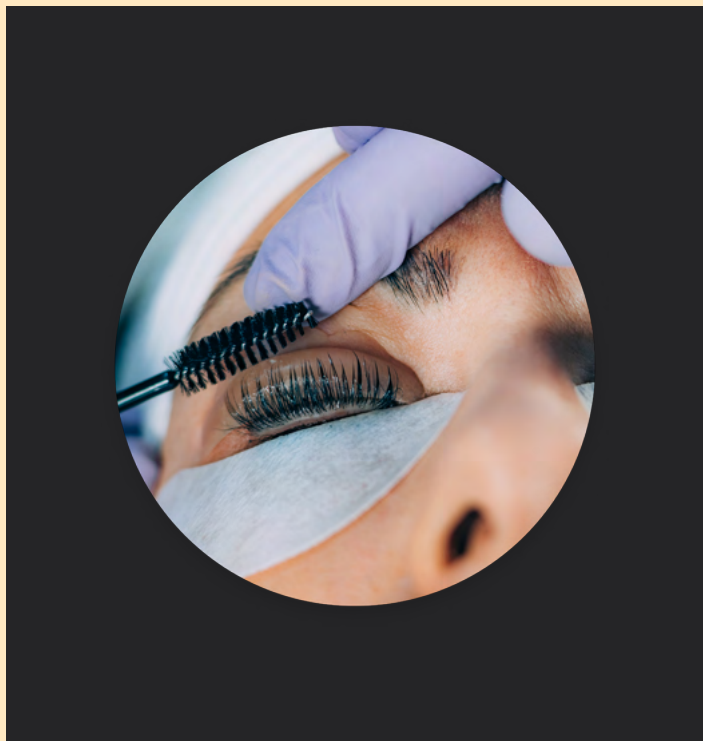

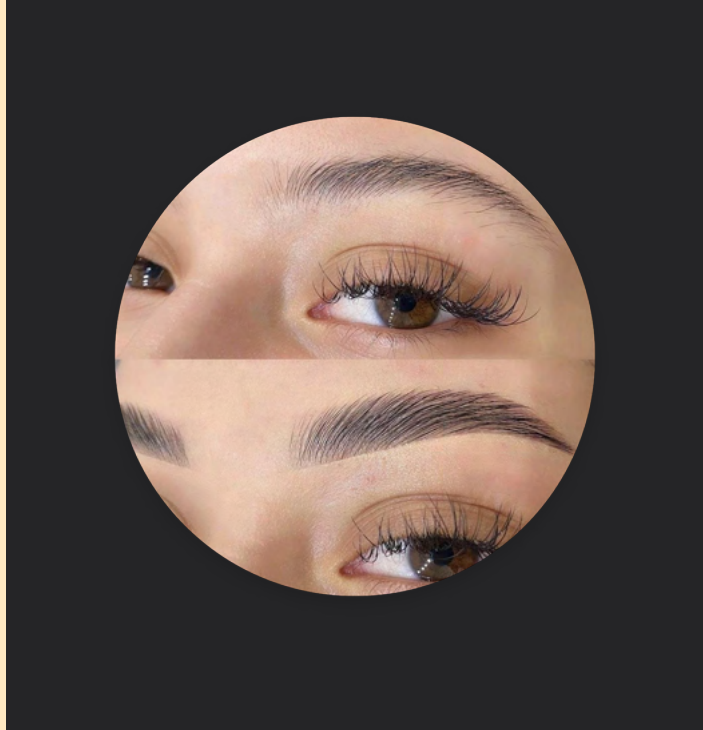

WHAT IS BROW LAMINATION?

It's also called brow sculpt or brow lift, is essentially a perm for your eyebrows. The service gained popularity in the U.K. and has been making its way to the States. In the same vein as microblading and tinting, it's designed to give fuller, more defined eyebrows. It takes your unruly or thinning brow hair and smoothes it out while also lifting the hair in a more vertical direction.

WHAT IS A LASH LAMINATION?

Lash lamination is a semi-permanent treatment to enhance the appearance of the lashes making them more curly with the appearance of looking longer as it turns the lashes upwards. This is great for those looking for a hassle-free makeup application or wanting to have flawless lashes without the need for lash extensions. Results last up to 6 weeks for a lash lamination.

LAMINATION KIT INGREDIENTS LIST:
