# SCALPA SMP

Our SMP Tattoo pigment is trusted and used by over half of the SMP industry and have been used in over 80,000 procedures worldwide. Our ink is 100% organic and charcoal based which is safe for all procedures. They feature NO color additives so your tattoo will never fade blue or green.

# SCALPA SMP PIGMENT

Our original SCALPA SMP Pigment color line is best suited for warm, tan or brown toned clients. Their skin has warm undertones meaning they need cool toned ink to offset their pigment and give the perfect results.
