*Slimming Oil &
Hot Cream*

HOT CREAM

Scalpa Hot Cream helps reduce the appearance of cellulite on areas such as the thighs, buttocks, and abdomen area. The ingredients contain aloe extract, witch hazel, grape seed oil, and jojoba oil, all of which are natural.

Benefits:

- Helps Firm and Tone The Skin
- Reduces Appearance of Stretch Marks
- Reduces the Appearance Of Cellulite
- Soothing
- Natural

How To Use Hot Cream:

Apply an ampoule amount to the desired area. Gently massage into the skin until it is fully absorbed. Daily use for multiple weeks is required for best results. This cream is best paired with a healthy diet, exercise, and fat reduction procedures.

This cream works great after Cupping Therapy Buttocks Enhancement Procedure.

SLIMMING OIL

Scalpa Slimming Oil uses natural ingredients including eucalyptus, grapefruit, grapeseed, and lemon oil to help reduce the appearance of cellulite.

Scalpa has formulated this Slimming Oil to help boost natural collagen production and stem cell longevity by infusing it straight into the bottle.

All ingredients have been carefully chosen and selected.

How To Use:

- Gently massage into the area.
- Works best when combined with a healthy diet, exercise, and/or fat reduction procedures.
- This cream works great after Cupping Therapy Buttocks Enhancement Procedure.
