The Lawson
-ALPINE-
GAS DRYER

Elevate Your Drying with the Alpine Cure

The Lawson Alpine Gas Dryer is a live-air dryer for the best cure for screen and digital printing. The rugged modular construction and advanced air-flo design make it exceptionally versatile and able to withstand any production requirements.

As a high-velocity live-air gas dryer, the Alpine's engineering handles DTG, screen printing and specialty/ASI items for a rapid and thorough drying of waterbase, DTG, plastisol, discharge, solvent and hybrid ink systems. Lawson's Uni-Flo/Live-Air Jet-Knife heat chamber creates an evenly distributed, continuous high-velocity jet-air action. Get the Alpine if you want a faster, premium curing gas dryer.

STANDARD SIZES & COMMON CONFIGURATIONS:

- Belt width: 24" up to 72"
- Belt length: 16 ft with optional expanded in-feed/out feed
- 8 ft heat chamber with optional expansion

ST. LOUIS | ATLANTA | NATIONWIDE
