The Lawson
LED-5000
Vertical PT

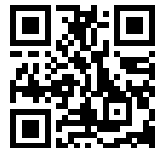

Sophisticated, Space-Saving CTS Exposure Unit

The Lawson LED-5000 Vertical PT is the greatest CTS specific LED exposure unit. If you demand hi-resolution halftone reproduction and sharp-edge definition but don't want a bulky, over-priced exposure unit, the Lawson LED-5000 Vertical PT is your ideal solution. You place it next to your CTS printer or incorporate it as a pass-through between your screen coating/CTS room and your screen wash-out area.

The Lawson LED-5000 Vertical PT simulates a Metal Halide exposure. It uses state-of-the-art technology with an easy-to-use digital timer. Rapid exposure (5,000 watt equivalent light) is combined with energy-efficiency, ease-of-use and reliability. Powerful LED Lamps are rich in UV output and are optically balanced to provide exceptionally rapid exposure without undercutting and assuring excellent resolution. Consistent exposure is guaranteed by our electronic countdown timer. Accurate light output is always assured because our specially designed LED lamps are guaranteed to last 3 years without loss of light intensity.
