The Lawson  
**M2-ENCORE**

4-Point Belt Tracking

Direct-Drive DC Conveyor System

Model Shown:  
#2408 M2-Encore

## A Performance Cure

The Lawson M2-Encore combines color-blind, focused infrared heat with jet-air in a compact conveyor dryer. The M2-Encore is an energy-wise dryer that is simple-to-use, and is maintenance-free. It even ships fully assembled, ready-to-use. If you are starting a new business, need a second dryer or are just looking for a great value, this conveyor dryer is for you!

Trade-In, Trade-Up...YES! The Lawson M-2 Encore also cures the problem of out growing your dryer. Lawson guarantees you can Trade-In and Trade-Up your Lawson M2-Encore Dryer during your first 10 years of ownership.

Easy Installation. Made in the U.S.A. by Lawson.

### Lawson's M2-Encore Provides:

- ✓ **Exclusive Lawson Arrow Belt Tracking:** The M2-Encore incorporates Lawson's exclusive Arrow Belt Tracking system - which means you'll never have to worry about keeping your dryer belt centered.
- ✓ **Complete-Wrap Insulation:** High-temperature, fiberglass insulation, specifically designed to keep heat in and your costs down. The entire heat chamber is wrapped — including the end and bottom panels. We estimate a savings of 25-30 percent on your energy costs.
- ✓ **Adjustable Zoned Heat Controls:** Independent temperature controllers (percentage) allow you to individually adjust each "color-blind" I.R. panel as desired on all 8' models. Note: The Encore #3610 has 3 I.R. Elements and 1 master controller for the temperature.
