

**We Make It Simple.**  
Trusted Since 1949

The Lawson  
**OMEGA GAS**  
Express

## Express True Value

The all new Lawson Omega Gas Express is the gas dryer with the smallest footprint. It's great for curing both plastisol and water-based inks. At only 16' long, the Omega Gas Express lets those with size limitations still have the benefits of gas dryers.

The Lawson Omega Gas Express is designed for easy installation with **no 220 voltage required** and can be used almost anywhere – even at home. The Lawson Omega Gas Express combines high-intensity Jet-Air and a fully insulated heat chamber that is specifically designed to maximize energy efficiency. This dryer saves on both utilities and capital investments compared to other gas dryers.

Our standard widths of 24" and 36" have a 3' In-Feed, 6' Heat Chamber, 3' Out-Feed and **use standard 120 volt plug-in wiring.**

### STANDARD FEATURES:

- Up-Front, Side-Mounted Control Panel
- Diagnostic Control/Monitor System
- Solid-State Electronic Temperature Controller
- Fail-Safe Thermocouple w/ Electronic Safety Back-Up
- Adjustable Temperature up to 340°F
- Complete-Wrap Insulation Package
- Triple-Wall Construction
- Chamber Belt Supports
- Direct-Drive Conveyor System
- Solid-State Belt Speed Controller
- Arrow Belt for Automatic Tracking
- Four (4) Point Belt Tensioning
- Heat Reflective S & S Memory Belt
- Reflective Heat Booster Lining
- Rugged, Solid-Steel Construction
- Adjustable Entrance & Exit Door Opening
- Damper-Controlled Powered Exhaust
- 1 Year Limited Parts Warranty
- 24/7/365 Technical & Print Support

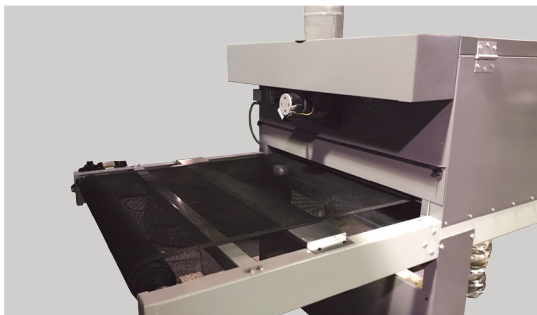

ST. LOUIS | ATLANTA | NATIONWIDE

## OPTIONAL FEATURES

- Additional In-Feed or Out-Feed
- I.R. Panel Booster (220 volts required)
- Exit or Entrance Exhaust Hood
- Turbo-Cooler
- Custom Design Features for Special Needs/Applications
- Export Electrics
