

# Spark\*1

## RING SIZING GUIDE

Print this PDF at actual size. **DO NOT** scale to fit. Use the pink box to the right to ensure you have correctly printed the guide.

### Method 1:

1. Find a ring that fits your finger well.
2. Place your ring over the circular guides until you find the right match or compare the inside diameters.

### Method 2:

1. Cut out the ring sizer and cut the slit where the sizer indicates.
2. Keep the end with the star flat against your finger and wrap the sizer around, pulling the other end with the "US" through the slit.
3. Choose the size the slit lines up with.

Congratulations! You are ready to purchase a Spark\*I ring!

**Note:** If you prefer a tighter or looser fit, please adjust the sizer accordingly.

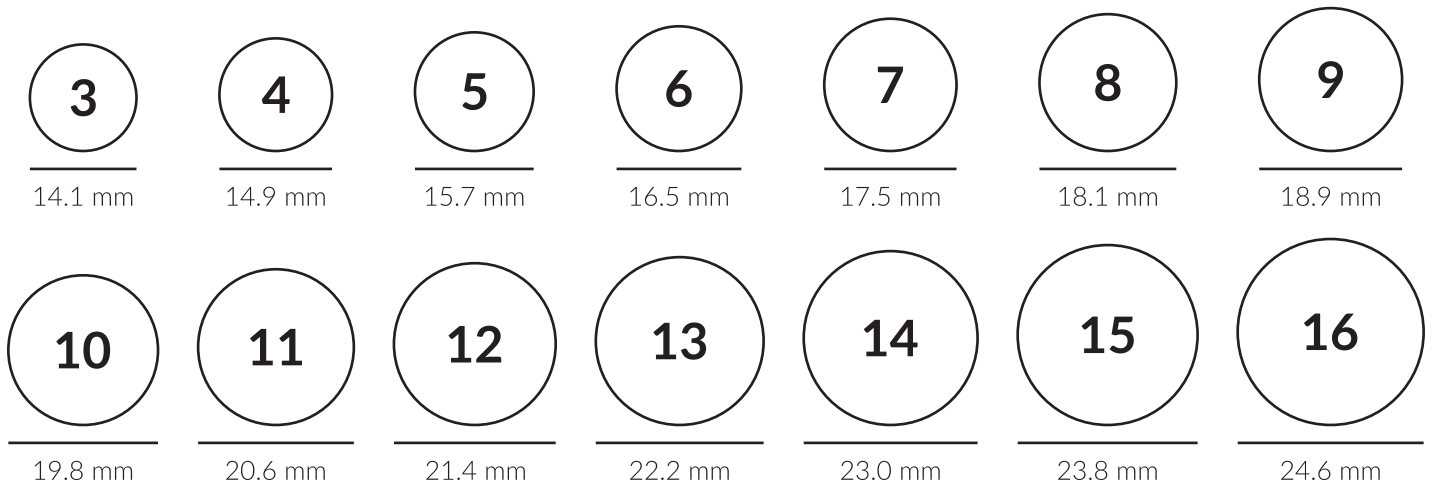

To confirm your printed page is the correct size, this pink box is the same size as a standard credit card.
