

Samples. MANAGED SIVIPLY.

Laboratory management software made easy.

SampleWare[™] is a laboratory management software created for scientists by scientists. SampleWare allows you to quickly and efficiently organize your samples for tracking, storage and retrieval.

From installation to implementation in minutes.

SampleWare was designed with ease of use in mind. Both the network and desktop versions take only a moment to install. SampleWare is easy to learn and even easier to use.

Locate and retrieve your samples in an instant.

With SampleWare, the online storage of your samples reflects their physical location in your lab. This allows samples to be located and retrieved rapidly.

Upload and track samples efficiently.

Customize the database to match your sample types.

Attach data and image files to individual samples.

Install, learn and use in minutes.

Track all activities performed on sample via an audit trail (NEW)

Transfer and Copy Samples.

While viewing multiple containers at once, SampleWare allows samples to be transferred and copied. This enables you to:

- Build test plates.
- Assemble data from multiple containers.
- Efficiently track the sample movement.
- Track all activities performed on a sample with new audit trail feature.

Data transfer enables collaboration.

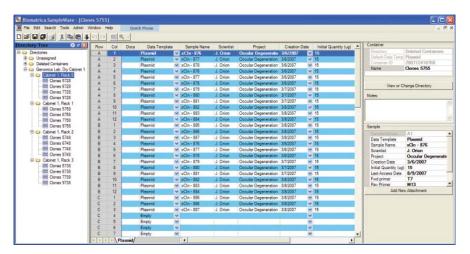

SampleWare allows data to be exported and imported in XML format, enabling you to easily transfer physical samples and associated tracking data between departments and among colleagues.

Barcode and RFID enabled.

SampleWare can make use of barcode or RFID (radio frequency identification) labels to automatically identify your samples and open the correct data files.

Spreadsheet Data Entry and Management.

SampleWare provides several methods for data entry and management including an easy to use spreadsheet. Search results can be exported directly to Microsoft® Excel®.

SampleWare is available in the following versions:

PRODUCT	CATALOG NO.
SampleWare Version 3.2, Desktop Edition	80004-003
SampleWare Version 3.2, Network Edition	80007-003
SampleWare Version 3.2, Basic Edition	80014-003
