

Water Bag Instructions

1. Insert the black tube through the openings in the top of the bag making a handle.
2. Open the red water bag stopper flap. Fill the pouch with water to the top of the Port-a-field logo and close stopper flap.
3. Place the water bag at the corner of the perimeter or line with the strap on the bottom of the water bag and attach the clip to your Port-A-Field's corner ring.
4. Once attached, pull the water bag to tighten your lines.
5. When finished drain your water in any convenient area.
