

Let CTL Drive Your Digital Signage Solutions

The CTL Chromebox CBx Series

CTL offers cost-effective devices backed by customized support to ensure full-service digital signage solutions for retail, airports, schools, libraries, corporate offices - anywhere you want people to access your content.

Small Footprint, Big Impact

The compact design of the CTL Chromebox means it can fit in, on, or behind just about any display. Measuring 6" x 6" x 1 1/2" and weighing only 3 lbs., it can be mounted to the back of most monitors using the included VESA mount.

Get your Message Across

An Intel® processor handles multitasking and streaming video with ease. Users can view all different kinds of media without sacrificing quality. Reduced page load times enable faster and easier access to content.

The Complete Package

CTL offers customized kitting for all that is needed for easy installation, setup, and management. All the essentials are carefully packaged - Chromebox, cables, accessories, installation instructions, etc. - and drop shipped.

Connected and Productive

CTL Chromeboxes easily connect to displays, audio hardware and keyboard devices with HDMI input or wirelessly via Bluetooth 5.1. Wi-Fi 6 makes sure each connected device maintains a quality, secure connection.

Setup for Success

CTL is there from the beginning to ensure a successful implementation of your digital signage. We provide provisioning with Google ZTE, Google Enterprise licensing, a June 2028 AUE, and 2-way shipping for RMAs.

Fast, Easy, and Protected

This versatile, cloud-based device has super fast boot-up and automatic updates, making it easy to manage remotely. Stream HD media with seamless connectivity. Built-in security means the device is always protected.
