

## Whisper Quiet

As the saying goes, real Gs move in silence, like lasagna.

How quiet you ask? You would be kicked out of a library for laughing before you would for trimming with the BatchOne Go. So feel free to trim during your next video call or even at the crack of dawn.

Trim Type	Feed (lbs/hr)	Feed (kg/hr)
<b>Dry</b>	Up to <b>5</b>	Up to <b>2.3</b>

**batchONE GO**

## Quality Automation for Home Growers

The BatchOne Go is engineered to make dry trimming your small batch a breeze. Made of aircraft grade aluminum and electropolished food grade stainless steel. With quality, affordability and a throughput of 5 lbs/hr there is nothing on the market that even comes close.

## Genius in Simplicity

With only 6 removable pieces and a smooth edgeless internal wall design, the BatchOne Go combines the industry's most gentle trimming process, frictionless trim capture and easy cleaning. Setup or breakdown in 30 seconds flat.

 WATCH IT IN ACTION

## Illuminati Confirmed

The right numbers lead to success. Understanding these variables will help you to a beast of a grow. That is why we shine the light so you can have the same keys during trimming. Extensive tests have shown your flower's optimal moisture content level for use with the BatchOne Go is 8-10%. Details matter.

## Features

- Optically Clear Lid with Magnetic Catch
- Easy-lock Tumbler Lid
- Frictionless Trim Capture
- Unique frame design allows for simple loading and unloading
- Quiet 58 decibels operation
- Fine saddle tension adjustments for tight trimming
- Anti-stall powerful 40W motor
- Lubrication free, mess-free operation
- Capture 100% of the trim without the need of a vacuum or Trim Saver
- Anti-slip durable rubber feet for grip while operating and cleaning
- Easy to remove motor assembly allows for fast machine cleaning with a pressure washer without damage to sensitive electronics
- Quick tumbler removal without removing fasteners
- Non-coated, electropolished 304 stainless steel tumbler
- FDA compliant materials
- CSA, UL, CE Certified
